16TH YEAR. NO. 147.

EAST LIVERPOOL, O., FRIDAY, NOVEMBER 30, 1900.

TWO CENTS

MESSANGER CASEY A MARRIED MAN

Sad News Was Taken to His Wife
and Two Children by a
Brother.

HE WAS 42 YEARS OF AGE

Had Been a Trusted Employee
of This Company For
15 Years.

COUGHANOUR IS SERIOUSLY ILL

The Cleveland Leader of yesterday prints the story of how the sad news of the death of Express Messenger Casey was conveyed to his wife. The article is as follows:

On a special train made up where the Cleveland & Pittsburg railway passenger train went into the river, Engineer Albert Coughanour, whose leg was so badly crushed that it had to be amputated, and William McIlvane, the Pullman porter, arrived in the city at 8:25 o'clock Wednesday morning.

Messenger Casey lived at No. 125 Davenport street. He was 42 years of age and had been employed by the Adams Express company for 15 years. Conductor Connell was standing in the door of the second coach when the train left the rails. The conductor was thrown forward, but managed to get to shore, a few feet distant. He lives at No. 16 Dunham place. Coughanour was removed to the Cleveland General hospital.

The Message of Death, which brought grief and sorrow to the home of Michael Casey, the express messenger, at No. 125 Davenport street, was carried by the dead man's brother, John Casey.

Mrs. Casey and her two children, Elmer and Maynard, the latter a mere babe, were at the breakfast table when the news of the wreck reached them. John Casey went to the house and from the expression on his face Mrs. Casey saw that something had happened. Knowing that her husband should have been home at that time, she divined what it was. John Casey told her what had occurred as simply and in as few words as he could. Mrs. Casey could hardly believe that it was true, and said that until she had seen her husband's dead body she would not believe it. It was a grief stricken trio that stood in the little home, when later reports confirmed the sad news. Casey was 42 years old. For 15 years he had been employed by the Adams Express company. He started there as a driver. Later he worked in the office, and was then employed as messenger between this city and Pittsburg. He was a faithful employee.

When he left here at 3 o'clock Monday afternoon he intended taking the next train back when he reached Pittsburg. This would bring him back here at 5 o'clock Wednesday morning. He would not have to go back to work until Thursday morning. However, he could have left Pittsburg Wednesday morning and arrived here about noon. On the Cleveland & Pittsburg run it is necessary for the Cleveland express messenger to take the next train back at Pittsburg and for the Pittsburg messenger to take the next train back when he arrives here, thus giving each man more time at his home.

When the news of the accident was first told Mrs. Casey, she hoped that her husband had not taken the first train for home. He was, however, in a hurry to get home to his family and rode on the ill-fated train.

That none of the passengers on the wrecked train were injured or killed is deemed almost a miracle by Conductor Connell. Regarding the accident Mr. Connell said yesterday:

"Just before the wreck occurred I was seated in the forward part of the day coach, near the door. I felt the coach tipping over and when the first jar came I opened the door. Then came a second jolt and I fell forward to the platform and rolled down and off the steps. I landed in water up to my knees, and only sustained a few scratches. The engine had plunged into the river and only the cab was clear from the water. The express car was entirely submerged. The baggage and mail cars were also in the water, but were not entirely submerged. It seems to be a miracle that the passenger coaches did not pile up on top of one another and that there was not a terrible loss of life. All the passengers were terribly excited, but they left the cars and it was found, barring a few scratches, all were safe. A tree growing at the bank of the river is what probably saved some of the cars from going into the stream. All of the cars back of the coach I was in swerved and ran into the tree, which in a measure, stopped them. Casey, the express messenger, was caught inside of his car, and if he was not fatally injured he was drowned, as the car he was in was under water."

On the arrival of the special train from the scene of the wreck, Albert Coughanour, the engineer on the wrecked train, was taken to the Cleveland General hospital. His condition was extremely serious. He was suffering from the wound he received in his right foot and a large gash in his right leg above the knee. He was also suffering from the exposure he had experienced.

Upon examination by Dr. Hobson it was found necessary to amputate the leg below the knee. Mrs. Coughanour was present at the hospital when her husband was brought in. She was terribly grieved and when told that his condition was very serious she was nearly prostrated. Coughanour was never very strong about the lungs, and as he was exposed to the wet and cold, it is feared that pneumonia will set in. In fact, he already has symptoms of the disease, and with the loss of blood and shock incident to the surgical operation he underwent grave fears are entertained for his recovery. At the hospital as he lay in a cot, Coughanour attempted to tell his wife his terrible experience, but was interrupted by the physicians, who forbade him in his weak condition to converse.

To the hospital attendants Mrs. Coughanour claimed that she was awakened early yesterday morning by hearing her husband's voice calling her. She said that she unbolted the door, thinking he could not get in, but he was not there. She said that she could not sleep any more and knew that something had happened to him. Mrs. Coughanour said that she was not surprised when she learned of the accident.

Mr. Coughanour lives at No. 1308 Superior street. He has a daughter aged 19 years, and a son 27 years old. He is 52 years old and has worked for the Cleveland & Pittsburg railroad for 32 years.

Last night Mr. Coughanour was placed under the influence of an anesthetic.

ENGINEER COUGHANOUR

When Coughanour found himself in

the river he was, in the embrace of the current and was being borne rapidly with it. His crushed ankle and foot pained him severely, making his leg numb to the hip, but with the other foot and his hands, which had not been injured, although encumbered with his heavy clothing and his overalls, he struck out for the shore, leaving a trace of blood behind him in the flood. He was carried 300 yards before he began to make any headway, but at last seemed to be master of the situation and succeeded in reaching the bank. By the aid of underbrush and a few strong weeds he pulled himself out on the bank and with the coolness and steady nerve which only a stoical engineer possesses, he took off his dripping "jumper," tore away his shirt and bound his wounds. The blood was flowing and he knew at once that to save his life he must staunch its flow. How to do that was the question, there was no one near to help him and he was not aware whether any other person on the train had been saved. Resorting to a method well known in surgery he took a stick of wood and twisted the bandages so securely around his foot that he completely stopped the flow of blood. Then he fell on his face in a dead faint.

As soon as the passengers were released those who kept their heads began to look after the crew. Mr. Chapin, of Cleveland, searching along the shore came upon the prostrate body of Engineer Coughanour. He revived him by strenuous efforts and in a half fainting, half conscious condition the engineer rolled over on his back and asked:

"Are the passengers safe?"

HIS CONDITION CRITICAL.

Although the condition of Albert Coughanour, the engineer on the Cleveland & Pittsburg railway train that was wrecked at Beaver, Pa., Wednesday morning, was somewhat improved yesterday, his case is still very serious. The shock of the accident, the exposure, and the injuries he received, may yet prove too much for him to stand.

However, the physicians at the Cleveland General hospital stated yesterday that he was improved. Last evening A. D. Curtis, superintendent of the Adams Express company, and who resides at Columbus, passed through Cleveland on his way home from the scene of the accident. Regarding it he said:

"The body of Casey, the express messenger, has not been recovered yet. It is either lodged at the bottom or has gone down the river with the swift current. The river in the vicinity of the accident has been dragged, and for a distance of 250 miles, to Huntington, patrols have been stationed to watch for it if it should wash ashore. The safe which was in the express car was recovered. It contained all the valuables, which did not amount to much. The rest of the express matter consisted of oysters, so the loss will not amount to much. The debris has been cleared away and trains are now running regularly."

NOT YET

Has the Body of Express Messenger Casey, Who Lost His Life at Beaver, Been Recovered.

The body of Express Messenger Casey, lost in the wreck at Beaver, has not yet been recovered.

The report exclusively published in the News Review Wednesday evening that the express car had struck the Panhandle bridge at Steubenville and went to pieces was verified yesterday by all of the Pittsburg morning papers.

COLOR MEN HAD A FIGHT

Mosby and Neal Came Together
Last Night and Some Blood
Was Spilled.

BOTH OF THEM RUN IN

Mosby Claims Neal Cut Him With
a Razor During the
Battle.

COMMON DRUNKS ARRESTED

W. E. Neal and Ed Mosby, both colored, mixed up in a fight at the corner of Sixth and West Market streets last night between 11 and 12 o'clock.

Officers Mahony, Morris and Davidson appeared on the scene and they were taken to city hall in the patrol, where a charge of fighting was placed against Mosby and a charge of cutting with intent to wound was placed against Neal, it being claimed by Mosby that he cut him on the left arm with a razor.

Mosby was fined \$9 60 this morning, which he paid and was released. Neal was given a hearing this afternoon. He is employed by Walter Allen as a barber.

Martin Muldowney, who is employed by the East Liverpool street railway, filled up on booze yesterday and wound up last night at the McNicol pottery, where he proceeded to take a nap. He was discovered by the night watchman, who ordered him from the pottery, and he refused, starting to use profane language. The patrol was called and Fireman Wood arrested Martin. He was taken to city hall, where he was fined \$1 and costs. He is still in.

Willie, better known as "Zip" Farmer, celebrated Thanksgiving by getting drunk. He was very disorderly on Second street and was arrested by Fireman Bettridge and taken to city hall. He was fined \$3 and costs, and not having the necessary amount is still in.

Andrew Hare, of New Cumberland, was very drunk Wednesday night and was having what he considered fun at the saloon of Poker Anderson by yelling so loud that he could be heard for several squares. The residents of that vicinity were not much for that kind of fun and he was arrested by Firemen Wood and Bryan. He was taken to city hall in the patrol and was fined \$1 and costs, which he paid and was released.

Frank Kenedy, who was arrested several days ago in the East End by Officer Hamilton, paid his fine of \$5 60 today and was released.

A complaint was filed at city hall this morning to the effect that two wagons have been standing in the alley between Second and Third streets, near the Croxall pottery, and that it would be impossible to lead a horse between them. One of the wagons is owned by Andrew Rattery, and Chief Thompson ordered the parties to remove the wagons.

Six New Cars.

It is stated that the East Liverpool Street Railway company has purchased six new cars and they will be placed on the line in this city as soon as possible.

—Mrs. H. E. Porter was a Pittsburg visitor yesterday.

TO REVOLUTIONIZE CASK BUSINESS

New Machine Placed In Operation
at Cooper Shop of W. F.
Dawson.

BEATS OLD HAND METHOD

Chamfering, Crazing and Equalizing Device For Preparing the
Staves to Be Used

IN THE MAKING OF CASKS

A machine was placed in operation Wednesday at the W. F. Dawson cooper shop on the Horn switch that promises to completely revolutionize the trade.

The apparatus is known as the Garlach automatic crazing, chamfering and equalizing machine, and is the first machine of its kind ever turned out. It was made in Cleveland, partially under the direction of Mr. Dawson, and works perfectly.

The apparatus is intended to prepare the ends of the staves for the formation of a barrel or cask, and will take in a stave anywhere from 16 to 42 inches in length.

The machine as it now stands can be made to turn out 50,000 staves a day, although but 20,000 daily are made at present. This is an increase of 100 per cent over the old hand method, and means a great deal to both manufacturer and employee, as it will enable the coopers to devote time to some other department of the work.

Two distinct kinds of finished ends can be made with but a slight change of dies, and one great advantage which the new machine possesses lies in the fact that only a few minutes delay is necessary to sharpen the saws and bits, while there is absolutely no danger to the operator from broken staves.

John Abram, lately employed by the Standard Oil company at Cleveland, operates the machine and takes just pride in his work. The new system will be introduced at the company's shops in Wellsville, East End and Southside, and while the plan means an increase in the output of at least 100 per cent, it will make no difference in the present working force of the firm.

The machine now in use at Dawson's shop was tested at the factory in Cleveland under the direction of Captain Dawson, and was pronounced a wonder before it was brought to this city.

WEDDING BELLS.

Lisbon, Nov. 30.—(Special.)—The following Thanksgiving marriage licenses were issued:

Edward B. Clifford, Pittsburg, and Miss Isabelle Lyth, Wellsville.

James St. Russell, Beaver, and Elizabeth Shively, North Georgetown.

Mark Burt, aged 69 years, and Elvira C. Eaton, aged 51 years, East Palestine.

William J. Miller and Orlena R. Heins, East Liverpool.

George Parr and Idella Willis, Salineville.

Frank W. Taylor, Warren, Michigan, and May Stroup, Knox township.

Robert H. Perry, East Liverpool, and Ada A. Crafts, Campus.

THE EVENING NEWS REVIEW.

16TH YEAR. NO. 147.

EAST LIVERPOOL, O., FRIDAY, NOVEMBER 30, 1900.

TWO CENTS

MESSANGER CASEY A MARRIED MAN

Sad News Was Taken to His Wife
and Two Children by a
Brother.

HE WAS 42 YEARS OF AGE

Had Been a Trusted Employee
of This Company For
15 Years.

COUGHANOUR IS SERIOUSLY ILL

The Cleveland Leader of yesterday prints the story of how the sad news of the death of Express Messenger Casey was conveyed to his wife. The article is as follows:

On a special train made up where the Cleveland & Pittsburg railway passenger train went into the river, Engineer Albert Coughanour, whose leg was so badly crushed that it had to be amputated, and William McIlvane, the Pullman porter, arrived in the city at 8:25 o'clock Wednesday morning.

Messenger Casey lived at No. 125 Davenport street. He was 42 years of age and had been employed by the Adams Express company for 15 years. Conductor Connell was standing in the door of the second coach when the train left the rails. The conductor was thrown forward, but managed to get to shore, a few feet distant. He lives at No. 16 Dunham place. Coughanour was removed to the Cleveland General hospital.

The Message of Death, which brought grief and sorrow to the home of Michael Casey, the express messenger, at No. 125 Davenport street, was carried by the dead man's brother, John Casey.

Mrs. Casey and her two children, Elmer and Maynard, the latter a mere babe, were at the breakfast table when the news of the wreck reached them. John Casey went to the house and from the expression on his face Mrs. Casey saw that something had happened. Knowing that her husband should have been home at that time, she divined what it was. John Casey told her what had occurred as simply and in as few words as he could. Mrs. Casey could hardly believe that it was true, and said that until she had seen her husband's dead body she would not believe it. It was a grief stricken trio that stood in the little home, when later reports confirmed the sad news. Casey was 42 years old. For 15 years he had been employed by the Adams Express company. He started there as a driver. Later he worked in the office, and was then employed as messenger between this city and Pittsburg. He was a faithful employee.

When he left here at 3 o'clock Monday afternoon he intended taking the next train back when he reached Pittsburg. This would bring him back here at 5 o'clock Wednesday morning. He would not have to go back to work until Thursday morning. However, he could have left Pittsburg Wednesday morning and arrived here about noon. On the Cleveland & Pittsburg run it is necessary for the Cleveland express messenger to take the next train back at Pittsburg and for the Pittsburg messenger to take the next train back when he arrives here, thus giving each man more time at his home.

When the news of the accident was first told Mrs. Casey, she hoped that her husband had not taken the first train for home. He was, however, in a hurry to get home to his family and rode on the ill-fated train.

That none of the passengers on the wrecked train were injured or killed is deemed almost a miracle by Conductor Connell. Regarding the accident Mr. Connell said yesterday:

"Just before the wreck occurred I was seated in the forward part of the day coach, near the door. I felt the coach tipping over and when the first jar came I opened the door. Then came a second jolt and I fell forward to the platform and rolled down and off the steps. I landed in water up to my knees, and only sustained a few scratches. The engine had plunged into the river and only the cab was clear from the water. The express car was entirely submerged. The baggage and mail cars were also in the water, but were not entirely submerged. It seems to be a miracle that the passenger coaches did not pile up on top of one another and that there was not a terrible loss of life. All the passengers were terribly excited, but they left the cars and it was found, barring a few scratches, all were safe. A tree growing at the bank of the river is what probably saved some of the cars from going into the stream. All of the cars back of the coach I was in swerved and ran into the tree, which in a measure, stopped them. Casey, the express messenger, was caught inside of his car, and if he was not fatally injured he was drowned, as the car he was in was under water."

On the arrival of the special train from the scene of the wreck, Albert Coughanour, the engineer of the wrecked train, was taken to the Cleveland General hospital. His condition was extremely serious. He was suffering from the wound he received in his right foot and a large gash in his right leg above the knee. He was also suffering from the exposure he had experienced.

Upon examination by Dr. Hobson it was found necessary to amputate the leg below the knee. Mrs. Coughanour was present at the hospital when her husband was brought in. She was terribly grieved and when told that his condition was very serious she was nearly prostrated. Coughanour was never very strong about the lungs, and as he was exposed to the wet and cold, it is feared that pneumonia will set in. In fact, he already has symptoms of the disease, and with the loss of blood and shock incident to the surgical operation he underwent grave fears are entertained for his recovery. At the hospital as he lay in a cot, Coughanour attempted to tell his wife his terrible experience, but was interrupted by the physicians, who forbade him in his weak condition to converse.

To the hospital attendants Mrs. Coughanour claimed that she was awakened early yesterday morning by hearing her husband's voice calling her. She said that she unbolted the door, thinking he could not get in, but he was not there. She said that she could not sleep any more and knew that something had happened to him. Mrs. Coughanour said that she was not surprised when she learned of the accident.

Mr. Coughanour lives at No. 1308 Superior street. He has a daughter aged 19 years, and a son 27 years old. He is 52 years old and has worked for the Cleveland & Pittsburg railroad for 32 years.

Last night Mr. Coughanour was placed under the influence of an anesthetic.

ENGINEER COUGHANOUR

When Coughanour found himself in

the river he was in the embrace of the current and was being borne rapidly with it. His crushed ankle and foot pained him severely, making his leg numb to the hip, but with the other foot and his hands, which had not been injured, although encumbered with his heavy clothing and his overalls, he struck out for the shore, leaving a trace of blood behind him in the flood. He was carried 300 yards before he began to make any headway, but at last seemed to be master of the situation and succeeded in reaching the bank. By the aid of underbrush and a few strong weeds he pulled himself out on the bank and with the coolness and steady nerve which only a stoical engineer possesses, he took off his dripping "jumper," tore away his shirt and bound his wounds. The blood was flowing and he knew at once that to save his life he must staunch its flow. How to do that was the question, there was no one near to help him and he was not aware whether any other person on the train had been saved. Resorting to a method well known in surgery he took a stick of wood and twisted the bandages so securely around his foot that he completely stopped the flow of blood. Then he fell on his face in a dead faint.

As soon as the passengers were released those who kept their heads began to look after the crew. Mr. Chapin, of Cleveland, searching along the shore came upon the prostrate body of Engineer Coughanour. He revived him by strenuous efforts and in a half fainting, half conscious condition the engineer rolled over on his back and asked:

"Are the passengers safe?"

HIS CONDITION CRITICAL.

Although the condition of Albert Coughanour, the engineer on the Cleveland & Pittsburg railway train that was wrecked at Beaver, Pa., Wednesday morning, was somewhat improved yesterday, his case is still very serious. The shock of the accident, the exposure, and the injuries he received, may yet prove too much for him to stand.

However, the physicians at the Cleveland General hospital stated yesterday that he was improved. Last evening A. D. Curtis, superintendent of the Adams Express company, and who resides at Columbus, passed through Cleveland on his way home from the scene of the accident. Regarding it he said:

"The body of Casey, the express messenger, has not been recovered yet. It is either lodged at the bottom or has gone down the river with the swift current. The river in the vicinity of the accident has been dragged, and for a distance of 250 miles, to Huntington, patrols have been stationed to watch for it if it should wash ashore. The safe which was in the express car was recovered. It contained all the valuables, which did not amount to much. The rest of the express matter consisted of oysters, so the loss will not amount to much. The debris has been cleared away and trains are now running regularly."

NOT YET

Has the Body of Express Messenger Casey, Who Lost His Life at Beaver, Been Recovered.

The body of Express Messenger Casey, lost in the wreck at Beaver, has not yet been recovered.

The report exclusively published in the News Review Wednesday evening that the express car had struck the Panhandle bridge at Steubenville and went to pieces was verified yesterday by all of the Pittsburg morning papers.

COLORED MEN HAD A FIGHT

Mosby and Neal Came Together
Last Night and Some Blood
Was Spilled.

BOTH OF THEM RUN IN

Mosby Claims Neal Cut Him With
a Razor During the
Battle.

COMMON DRUNKS ARRESTED

W. E. Neal and Ed Mosby, both colored, mixed up in a fight at the corner of Sixth and West Market streets last night between 11 and 12 o'clock.

Officers Mahony, Morris and Davidson appeared on the scene and they were taken to city hall in the patrol, where a charge of fighting was placed against Mosby and a charge of cutting with intent to wound was placed against Neal, it being claimed by Mosby that he cut him on the left arm with a razor.

Mosby was fined \$9 60 this morning, which he paid and was released. Neal was given a hearing this afternoon. He is employed by Walter Allen as a barber.

Martin Muldowney, who is employed by the East Liverpool street railway, filled up on booze yesterday and wound up last night at the McNicol pottery, where he proceeded to take a nap. He was discovered by the night watchman, who ordered him from the pottery, and he refused, starting to use profane language. The patrol was called and Fireman Wood arrested Martin. He was taken to city hall, where he was fined \$1 and costs. He is still in.

Wyllie, better known as "Zip" Farmer, celebrated Thanksgiving by getting drunk. He was very disorderly on Second street and was arrested by Fireman Bettridge and taken to city hall. He was fined \$3 and costs, and not having the necessary amount is still in.

Andrew Hare, of New Cumberland, was very drunk Wednesday night and was having what he considered fun at the saloon of Poker Anderson by yelling so loud that he could be heard for several squares. The residents of that vicinity were not much for that kind of fun and he was arrested by Firemen Wood and Bryan. THE EVENING NEWS REVIEW.

16TH YEAR. NO. 147.

EAST LIVERPOOL, O., FRIDAY, NOVEMBER 30, 1900.

TWO CENTS

MESSANGER CASEY A MARRIED MAN

**Sad News Was Taken to His Wife
and Two Children by a
Brother.**

HE WAS 42 YEARS OF AGE

**Had Been a Trusted Employee
of This Company For
15 Years.**

COUGHANOUR IS SERIOUSLY ILL

The Cleveland Leader of yesterday prints the story of how the sad news of the death of Express Messenger Casey was conveyed to his wife. The article is as follows:

On a special train made up where the Cleveland & Pittsburg railway passenger train went into the river, Engineer Albert Coughanour, whose leg was so badly crushed that it had to be amputated, and William McIlvane, the Pullman porter, arrived in the city at 8:25 o'clock Wednesday morning.

Messenger Casey lived at No. 125 Davenport street. He was 42 years of age and had been employed by the Adams Express company for 15 years. Conductor Connell was standing in the door of the second coach when the train left the rails. The conductor was thrown forward, but managed to get to shore, a few feet distant. He lives at No. 16 Dunham place. Coughanour was removed to the Cleveland General hospital.

The Message of Death, which brought grief and sorrow to the home of Michael Casey, the express messenger, at No. 125 Davenport street, was carried by the dead man's brother, John Casey.

Mrs. Casey and her two children, Elmer and Maynard, the latter a mere babe, were at the breakfast table when the news of the wreck reached them. John Casey went to the house and from the expression on his face Mrs. Casey saw that something had happened. Knowing that her husband should have been home at that time, she divined what it was. John Casey told her what had occurred as simply and in as few words as he could. Mrs. Casey could hardly believe that it was true, and said that until she had seen her husband's dead body she would not believe it. It was a grief stricken trio that stood in the little home, when later reports confirmed the sad news. Casey was 42 years old. For 15 years he had been employed by the Adams Express company. He started there as a driver. Later he worked in the office, and was then employed as messenger between this city and Pittsburg. He was a faithful employee.

When he left here at 3 o'clock Monday afternoon he intended taking the next train back when he reached Pittsburg. This would bring him back here at 5 o'clock Wednesday morning. He would not have to go back to work until Thursday morning. However, he could have left Pittsburg Wednesday morning and arrived here about noon. On the Cleveland & Pittsburg run it is necessary for the Cleveland express messenger to take the next train back at Pittsburg and for the Pittsburg messenger to take the next train back when he arrives here, thus giving each man more time at his home.

When the news of the accident was first told Mrs. Casey, she hoped that her husband had not taken the first train for home. He was, however, in a hurry to get home to his family and rode on the ill-fated train.

That none of the passengers on the wrecked train were injured or killed is deemed almost a miracle by Conductor Connell. Regarding the accident Mr. Connell said yesterday:

"Just before the wreck occurred I was seated in the forward part of the day coach, near the door. I felt the coach tipping over and when the first jar came I opened the door. Then came a second jolt and I fell forward to the platform and rolled down and off the steps. I landed in water up to my knees, and only sustained a few scratches. The engine had plunged into the river and only the cab was clear from the water. The express car was entirely submerged. The baggage and mail cars were also in the water, but were not entirely submerged. It seems to be a miracle that the passenger coaches did not pile up on top of one another and that there was not a terrible loss of life. All the passengers were terribly excited, but they left the cars and it was found, barring a few scratches, all were safe. A tree growing at the bank of the river is what probably saved some of the cars from going into the stream. All of the cars back of the coach I was in swerved and ran into the tree, which in a measure, stopped them. Casey, the express messenger, was caught inside of his car, and if he was not fatally injured he was drowned, as the car he was in was under water."

On the arrival of the special train from the scene of the wreck, Albert Coughanour, the engineer of the wrecked train, was taken to the Cleveland General hospital. His condition was extremely serious. He was suffering from the wound he received in his right foot and a large gash in his right leg above the knee. He was also suffering from the exposure he had experienced.

Upon examination by Dr. Hobson it was found necessary to amputate the leg below the knee. Mrs. Coughanour was present at the hospital when her husband was brought in. She was terribly grieved and when told that his condition was very serious she was nearly prostrated. Coughanour was never very strong about the lungs, and as he was exposed to the wet and cold, it is feared that pneumonia will set in. In fact, he already has symptoms of the disease, and with the loss of blood and shock incident to the surgical operation he underwent grave fears are entertained for his recovery. At the hospital as he lay in a cot, Coughanour attempted to tell his wife his terrible experience, but was interrupted by the physicians, who forbade him in his weak condition to converse.

To the hospital attendants Mrs. Coughanour claimed that she was awakened early yesterday morning by hearing her husband's voice calling her. She said that she unbolted the door, thinking he could not get in, but he was not there. She said that she could not sleep any more and knew that something had happened to him. Mrs. Coughanour said that she was not surprised when she learned of the accident.

Mr. Coughanour lives at No. 1308 Superior street. He has a daughter aged 19 years, and a son 27 years old. He is 52 years old and has worked for the Cleveland & Pittsburg railroad for 32 years.

Last night Mr. Coughanour was placed under the influence of an anesthetic.

ENGINEER COUGHANOUR

When Coughanour found himself in

the river he was in the embrace of the current and was being borne rapidly with it. His crushed ankle and foot pained him severely, making his leg numb to the hip, but with the other foot and his hands, which had not been injured, although encumbered with his heavy clothing and his overalls, he struck out for the shore, leaving a trace of blood behind him in the flood. He was carried 300 yards before he began to make any headway, but at last seemed to be master of the situation and succeeded in reaching the bank. By the aid of underbrush and a few strong weeds he pulled himself out on the bank and with the coolness and steady nerve which only a stoical engineer possesses, he took off his dripping "jumper," tore away his shirt and bound his wounds. The blood was flowing and he knew at once that to save his life he must staunch its flow. How to do that was the question, there was no one near to help him and he was not aware whether any other person on the train had been saved. Resorting to a method well known in surgery he took a stick of wood and twisted the bandages so securely around his foot that he completely stopped the flow of blood. Then he fell on his face in a dead faint.

As soon as the passengers were released those who kept their heads began to look after the crew. Mr. Chapin, of Cleveland, searching along the shore came upon the prostrate body of Engineer Coughanour. He revived him by strenuous efforts and in a half fainting, half conscious condition the engineer rolled over on his back and asked:

"Are the passengers safe?"

HIS CONDITION CRITICAL.

Although the condition of Albert Coughanour, the engineer on the Cleveland & Pittsburg railway train that was wrecked at Beaver, Pa., Wednesday morning, was somewhat improved yesterday, his case is still very serious. The shock of the accident, the exposure, and the injuries he received, may yet prove too much for him to stand.

However, the physicians at the Cleveland General hospital stated yesterday that he was improved. Last evening A. D. Curtis, superintendent of the Adams Express company, and who resides at Columbus, passed through Cleveland on his way home from the scene of the accident. Regarding it he said:

"The body of Casey, the express messenger, has not been recovered yet. It is either lodged at the bottom or has gone down the river with the swift current. The river in the vicinity of the accident has been dragged, and for a distance of 250 miles, to Huntington, patrols have been stationed to watch for it if it should wash ashore. The safe which was in the express car was recovered. It contained all the valuables, which did not amount to much. The rest of the express matter consisted of oysters, so the loss will not amount to much. The debris has been cleared away and trains are now running regularly."

NOT YET

Has the Body of Express Messenger Casey, Who Lost His Life at Beaver, Been Recovered.

The body of Express Messenger Casey, lost in the wreck at Beaver, has not yet been recovered.

The report exclusively published in the News Review Wednesday evening that the express car had struck the Panhandle bridge at Steubenville and went to pieces was verified yesterday by all of the Pittsburg morning papers.

COLORED MEN HAD A FIGHT

**Mosby and Neal Came Together
Last Night and Some Blood
Was Spilled.**

BOTH OF THEM RUN IN

**Mosby Claims Neal Cut Him With
a Razor During the
Battle.**

COMMON DRUNKS ARRESTED

W. E. Neal and Ed Mosby, both colored, mixed up in a fight at the corner of Sixth and West Market streets last night between 11 and 12 o'clock.

Officers Mahony, Morris and Davidson appeared on the scene and they were taken to city hall in the patrol, where a charge of fighting was placed against Mosby and a charge of cutting with intent to wound was placed against Neal, it being claimed by Mosby that he cut him on the left arm with a razor.

Mosby was fined \$9 60 this morning, which he paid and was released. Neal was given a hearing this afternoon. He is employed by Walter Allen as a barber.

Martin Muldowney, who is employed by the East Liverpool street railway, filled up on booze yesterday and wound up last night at the McNicol pottery, where he proceeded to take a nap. He was discovered by the night watchman, who ordered him from the pottery, and he refused, starting to use profane language. The patrol was called and Fireman Wood arrested Martin. He was taken to city hall, where he was fined \$1 and costs. He is still in.

Wyllie, better known as "Zip" Farmer, celebrated Thanksgiving by getting drunk. He was very disorderly on Second street and was arrested by Fireman Bettridge and taken to city hall. He was fined \$3 and costs, and not having the necessary amount is still in.

Andrew Hare, of New Cumberland, was very drunk Wednesday night and was having what he considered fun at the saloon of Poker Anderson by yelling so loud that he could be heard for several squares. The residents of that vicinity were not much for that kind of fun and he was arrested by Firemen Wood and Bryan. He was taken to city hall in the patrol and was fined \$1 and costs, which he paid and was released.

Frank Kenedy, who was arrested several days ago in the East End by Officer Hamilton, paid his fine of \$5 60 today and was released.

A complaint was filed at city hall this morning to the effect that two wagons have been standing in the alley between Second and Third streets, near the Croxall pottery, and that it would be impossible to lead a horse between them. One of the wagons is owned by Andrew Rattery, and Chief Thompson ordered the parties to remove the wagons.

Six New Cars.

It is stated that the East Liverpool Street Railway company has purchased six new cars and they will be placed on the line in this city as soon as possible.

—Mrs. H. E. Porter was a Pittsburg visitor yesterday.

TO REVOLUTIONIZE CASK BUSINESS

**New Machine Placed In Operation
at Cooper Shop of W. F.
Dawson.**

BOTH OF THEM RUN IN

**Chamfering, Crazing and Equalizing Device For Preparing the
Staves to Be Used**

COMMON DRUNKS ARRESTED

A machine was placed in operation Wednesday at the W. F. Dawson cooper shop on the Horn switch that promises to completely revolutionize the trade.

The apparatus is known as the Garlach automatic crazing, chamfering and equalizing machine, and is the first machine of its kind ever turned out. It was made in Cleveland, partially under the direction of Mr. Dawson, and works perfectly.

The apparatus is intended to prepare the ends of the staves for the formation of a barrel or cask, and will take in a stave anywhere from 16 to 42 inches in length.

The machine as it now stands can be made to turn out 50,000 staves a day, although but 20,000 daily are made at present. This is an increase of 100 per cent over the old hand method, and means a great deal to both manufacturer and employee, as it will enable the coopers to devote time to some other department of the work.

Two distinct kinds of finished ends can be made with but a slight change of dies, and one great advantage which the new machine possesses lies in the fact that only a few minutes delay is necessary to sharpen the saws and bits, while there is absolutely no danger to the operator from broken staves.

John Abram, lately employed by the Standard Oil company at Cleveland, operates the machine and takes just pride in his work. The new system will be introduced at the company's shops in Wellsville, East End and Southside, and while the plan means an increase in the output of at least 100 per cent, it will make no difference in the present working force of the firm.

The machine now in use at Dawson's shop was tested at the factory in Cleveland under the direction of Captain Dawson, and was pronounced a wonder before it was brought to this city.

WEDDING BELLS.

Lisbon, Nov. 30.—(Special.)—The following Thanksgiving marriage licenses were issued:

Edward B. Clifford, Pittsburg, and Miss Isabelle Lyth, Wellsville. James St. Russell, Beaver, and Elizabeth Shively, North Georgetown. Mark Burt, aged 69 years, and Elvira C. Eaton, aged 51 years, East Palestine.

William J. Miller and Orlena R. Heins, East Liverpool.

George Parr and Idella Willis, Salineville.

Frank W. Taylor, Warren, Michigan, and May Stroup, Knox township.

Robert H. Perry, East Liverpool, and Ada A. Crafts, Campus.

COUNCIL DIDN'T PASS ORDINANCE

Liverymen Will Not Have to Pay
a License Fee as It
Takes

MORE THAN FIVE MEMBERS

To Be In Favor of an Ordinance
Before It Can Become
a Law.

IT MAY COME UP ONCE MORE

At the meeting of council Tuesday night the new vehicle ordinance came up and was presumably passed by a vote of 5 to 3, two members of council being absent.

The question has now arisen as to whether the ordinance really passed, and attorneys in this city hold that it did not, giving as a reason that it takes a majority of all the members elect to pass an ordinance.

Section 1691 of the Ohio manual for councilmen says:

"Ordinances, resolutions and by-laws shall require for their passage or adoption the concurrence of a majority of all the members elected."

The same authority also says it shall take a two-thirds vote to suspend the rules. In this case everything was proper, as seven members voted to suspend the rules and only one against.

President Marshall in declaring the ordinance passed took the position that it required a majority of the members of council present and voting.

There is no doubt whatever but that the liverymen of the city will carry the matter to court before they will pay the license fee, and in the event of a probable action the ordinance may be called up again and re-passed, but not until after an opinion is given by the city solicitor.

If the ordinance really passed the license fee can be collected, as the matter was carefully looked into before it was introduced in council.

The members who voted against the ordinance were Peach, Heddleston and Arnold, while Marshall, Nice, McLane, McHenry and Fisher supported it. The absent members were Cripps and Fisher.

President Marshall announced this morning that the ordinance had failed to pass, as it required a majority of the members elected.

This means that the ordinance was killed the other night, but it will probably be introduced at another meeting of council.

BEVERLY BUTLER

A Well Known Colored Resident of
Wellsville Died Very Suddenly
Last Night.

Beverly Butler, colored, who runs a restaurant on Front street, died very suddenly last night about 10 o'clock.

Butler was at the restaurant and said he was not feeling well and that he would go home. When he reached home he laid down and in two hours was dead.

He was aged about 50 years and has been in business at Wellsville for the past 15 years. He was well known in this city.

Heart trouble was the cause of death.

December 1st, 2d And 3d Via Pennsylvania Lines.

Excursion tickets to Chicago will be sold from ticket stations on the Pennsylvania lines December 1st, 2d and 3d, account the International Live Stock Exposition. The reduced rate will be open to the general public. Return limit on all excursion tickets sold for this event will be December 9th. For tickets and further information apply to nearest ticket agent of Pennsylvania lines.

TILTONVILLE POTTERY

May Be Sold to a Wheeling Company
Which is Capitalized at a
Million Dollars.

Negotiations are pending for the sale of the Tiltonville pottery to a company of Wheeling capitalists who, if they secure it, intend to enlarge and operate it.

A special dispatch from Wheeling says:

"The Vance Faience company, recently chartered by a dozen of Wheeling's capitalists with \$1,000,000 capital, has bought the Tiltonville pottery, at Tiltonville, O., and will make it the nucleus for one of the largest plants in the country for the manufacture of high grade art pottery."

"Charles W. Franzheim, of the Wheeling Pottery company; J. N. Vance, of the National Tube company, and John D. Culbertson, of the Riverside iron works, are among those interested. The Tiltonville pottery has been idle for several years and formerly made sanitary ware."

Inquiry of Wheeling parties elicited the information that the company is trying to buy the Tiltonville plant, but that the deal has not yet been closed. The incorporators of the million dollar Vance, Faience company are H. E. Vance, J. N. Vance, J. D. Culbertson, W. J. Mays and C. W. Franzheim. They will meet December 8 to elect officers and decide on future plans, but none of the incorporators will give out any information as to what line of ware they intend to manufacture.

Do You Want Health?

TILTONVILLE POTTERY

May Be Sold to a Wheeling Company
Which is Capitalized at a
Million Dollars.

Negotiations are pending for the sale of the Tiltonville pottery to a company of Wheeling capitalists who, if they secure it, intend to enlarge and operate it.

A special dispatch from Wheeling says:

"The Vance Faience company, recently chartered by a dozen of Wheeling's capitalists with \$1,000,000 capital, has bought the Tiltonville pottery, at Tiltonville, O., and will make it the nucleus for one of the largest plants in the country for the manufacture of high grade art pottery."

"Charles W. Franzheim, of the Wheeling Pottery company; J. N. Vance, of the National Tube company, and John D. Culbertson, of the Riverside iron works, are among those interested. The Tiltonville pottery has been idle for several years and formerly made sanitary ware."

Inquiry of Wheeling parties elicited the information that the company is trying to buy the Tiltonville plant, but that the deal has not yet been closed. The incorporators of the million dollar Vance, Faience company are H. E. Vance, J. N. Vance, J. D. Culbertson, W. J. Mays and C. W. Franzheim. They will meet December 8 to elect officers and decide on future plans, but none of the incorporators will give out any information as to what line of ware they intend to manufacture.

Do You Want Health?

Of course you do. It beats wealth every time; is more precious than diamonds. The best guide to health is to eat good food and the best place to get table supplies in the city is at
KELSEY BENNETT'S.

Black and fancy worsted suitings are the right thing this season.

OFFICIAL PAPER OF THE CITY
FRIDAY, NOVEMBER 30, 1900.

BRAVE COUGHANOUR.

It is very earnestly hoped that serious complications may not ensue in the case of the heroic engineer of the ill-fated train which went over the embankment of the Ohio river this week. The noble fellow, if he lives, should have fitting reward, for his nerve and gallantry.

BITETH LIKE A SERPENT.

And now it is said that a young journalist of this city, who apparently had a bright future before him, has looked upon the wine too persistently as it gave forth its color, and that the accursed serpent coiled in the alcohol has stung him so badly that he has become a shattered, worthless wreck: "Tis true—tis pity; and pity 'tis 'tis true."

CASEY'S DEAR ONES.

And his loving wife hopes against hope, believing that, in some miraculous manner, he may have escaped the grim monster death. The more one thinks about his sad case, locked in a living tomb, in dread and darkness, not knowing what had befallen the train or the nature of the awful disaster, the more every human heart aches for him in his awful situation. It seems that his wife's hope is based on a frail foundation, if the statement that the engineer and fireman heard him crying out for help be true.

THEY HAVE FAITH.

And their faith is founded on the bed rock of fact. They know full well what they are about. They have had indisputable, unanswerable evidence given them. A glance at our columns in today's issue will show you that we have reference to the business men and merchants of East Liverpool, advertisers in the News Review; keen-witted, live and progressive merchants; men who believe in advertising where it pays to advertise. And, despite the great mass of advertising, we do no injustice to our readers, but give the full amount of local reading matter and telegraph news. Permit us to blow our own bugle.

Golf gloves, black and colors, 75c.

Woolen mittens 25c, 30c and 50c.

Silk mittens 50c, 85c, \$1, \$1.25 and \$1.50.

Misses' kid gloves, browns and reds, \$1.

Misses' golf gloves and woolen mittens.

Princess of Wales Corset. The new \$1.50 corset is winning its way into popular favor. It has been in the market but a few months, yet there is quite a demand for it. You know the Princess of Wales is made on the lines of Her Majesty's corset; made too, by the makers of Her Majesty's, and it is as good a corset as yet brought out to sell at \$1.50.

You should ask to see it.

D. M. Ogilvie & Co.

Shoes For The Children.

Shoes for the restless, growing feet of Children can be had in any size, width, quality or price at our store. We have investigated this matter thoroughly and have hit upon lines of shoes for Children that have a national reputation, and will give complete satisfaction.

Prices? You know ours are always lowest in town, quality considered, and our Children's Shoe Prices are no exception to this rule.

Come with the Children and let us prove it.

An instructive tablet given free with every pair of school shoes.

MARSHAL SUPPLEE FILES A MOTION

Asks That the Charges Against Him Be Dismissed by the Lisbon Council.

HAS SOME GOOD REASONS

No City Ordinance or State Law That Provides For Such a Trial.

SAYS CHARGES ARE FALSE

Marshal W. C. Supplee, of Lisbon, has filed an answer to the charges preferred against him by Frank Shriver and the village council of Lisbon. His answer is headed "a motion to dismiss the action of Frank Shriver and village council against W. C. Supplee as marshal," and is as follows:

"Now comes Walter C. Supplee, as marshal of the village of Lisbon, and moves the council of said village to dismiss the charges filed against him as marshal by the village council at the request of one Frank Shriver, for the following reasons, to wit:

"First—There is no law in the state of Ohio and no ordinances in the village of Lisbon authorizing the village council to prefer charges before the village council or to try the marshal, who was elected by the people under the laws of Ohio and not by the village council upon any such charges.

"Second—For the village council to prefer charges against an officer and to try the officer upon such charges, making the council both prosecutor and trial court is contrary to every law, to every principle of equity and justice in the history of Ohio.

"Third—There is no charge in the complaint of Frank Shriver for the resolution of the council of the village of Lisbon, of any conduct or of any act done by said W. C. Supplee as such marshal, which is made grounds for the removal of such officer, either by ordinance of the village of Lisbon or by the laws of the state of Ohio. The charges bear upon their face the evidence that they are false, malicious and untrue. They were conceived in a wanton spirit of hatred, envy and ill-will. They seem to be the offspring of an intermeddler and a sympathizer with the drunkard and the law breaker who would usurp the power of the state of Ohio and make the officer responsible to him for his act and his verdict, rather than to the laws of the great state of Ohio, which is responsible for his creation and to which he is liable for every violation of his duty as an officer.

"Fifth—The complaint of Frank Shriver and the resolution of the village council so far as they reflect upon the conduct of the defendant as an officer or charge him with the violation of his duty as marshal of the village of Lisbon, or the violation of the laws of Ohio are absolutely false.

[Signed.] "W. C. SUPPLEE,
"As Marshal of the Village of Lisbon."

Special to Taxpayers.

Taxpayers desiring a statement of their taxes from the County Treasurer's office, should make the request for same not later than December 1st, 1900.

MISS EARLA DUFFY

And Sheriff-elect Barry, of Cuyahoga County, Were Married Wednesday Afternoon.

Sheriff-elect E. B. Barry, of Cleveland, and Miss Earla Duffy, formerly of Wellsville, were united in marriage at Cleveland Wednesday afternoon. They spent Thanksgiving in Buffalo with friends and left for New York, where they will spend two weeks.

The Cleveland Leader gives the following account of the wedding:

"Only the immediate friends of the contracting parties were present at the wedding yesterday afternoon at 4 o'clock of Sheriff-elect Edwin D. Barry and Miss Earle May Duffy, of No. 141 Wade Park avenue. The ceremony was performed by Monsignore T. P. Thorpe at Immaculate Conception church. Immediately following the ceremony Mr. and Mrs. Barry left for a short eastern trip. No cards had been issued for the wedding, as both the bride and groom wished to avoid ostentation.

"The bride was married in her going-away gown, and was unattended. Mr. Barry's marriage was a surprise to his associates in the sheriff's office. Many of them were not notified of the event until after it had taken place. Mr. Barry is deputy sheriff of Cuyahoga county and is also sheriff-elect. At the recent election he received more votes than any candidate at the election. His bride is a young woman of rare qualities, and his many friends will congratulate him on his choice.

A WARM GAME

West End Rovers Defeated the Diamond Indians, Jrs., at Football Yesterday Morning.

A very hot game of rugby was played yesterday morning at Rock Springs between two juvenile teams known as the Diamond Indians Jrs. and the West End Rovers.

The game resulted in a victory for the Rovers by a score of 10 to 5. The features of the game was the run of Rolley Hawkins, of the Indians, who went around the end for a gain of 85 yards. Joe Young, another member of the same team, played the whole game through with a badly broken finger.

When the game was finished almost every member of the opposing team was bespattered with blood from the injured hand.

ROVERS LOST

East Pittsburg Defeated Them at Rock Springs Yesterday by a Score of 4 to 0.

The East Pittsburg association football club, with the wind decidedly in their favor, managed to defeat the Rovers by a score of 4 to 0 yesterday afternoon at Rock Springs.

In the first half the Rovers had the wind in their favor, but neither club was able to score and the half ended 0 to 0.

After several minutes' play in the second half East Pittsburg made their first goal, although the player who made it was clearly offside. This took the heart out of the Rovers and the other three goals followed in quick succession.

Change in Time of Trains on Pennsylvania Lines.

Under a new schedule in effect November 25th, 1900, passenger trains over the Pennsylvania lines leave East Liverpool passenger station as follows:

For the east—3:56 a. m., 6:51 a. m., 11:21 a. m., 3:06 p. m., 7 p. m.
For the west—12:36 a. m., 7:05 a. m., 9:06 a. m., 2:50 p. m., 6:13 p. m.
Sunday trains—East, 5:25 p. m.; west, 9:06 a. m.

For particular information on the subject apply to A. Hill, ticket agent.

—Mrs. Oliver Ashbaugh, of East Palestine, is visiting her son, Lyle Ashbaugh, Jackson street.

GOING DOWN

The Marks at the Wharf Registered 15 Feet And Falling This Morning.

The river fell very fast the past two days and this morning the marks at the wharf registered 15 feet and falling.

The Lorena and Greenwood passed up last night for Pittsburg and the Avalon passed down for Parkersburg.

The Virginia and City of Wheeling passed up today for Pittsburg. All the boats did a good business at this place.

Several of the large boats passed down yesterday with heavy tows for southern points, and the small boats are hurrying to Pittsburg in order that they may get all the coal out possible before the river gets low. A number of boats tied up along the beach between this city and Wellsville last night.

NEW OFFICERS

Local Union No. 12 Held an Election at Their Last Regular Meeting.

Local union No. 12, N. B. of O. P., at their last meeting elected the following officers to serve during the coming year:

President, George Wilson; vice president, George White; recording secretary, William Anderson; financial secretary, Thomas Higgins; treasurer, Leroy Orr; statistician, J. M. Grafton; inspector, George Schepp; outside guard, Charles Durff; trustees, John Reark and Charles Durff.

The meeting was well attended and some of the contests were spirited. The newly elected officers will be installed at the next regular meeting, December 4.

ROVERS LOST

East Pittsburg Defeated Them at Rock Springs Yesterday by a Score of 4 to 0.

The East Pittsburg association football club, with the wind decidedly in their favor, managed to defeat the Rovers by a score of 4 to 0 yesterday afternoon at Rock Springs.

In the first half the Rovers had the wind in their favor, but neither club was able to score and the half ended 0 to 0.

After several minutes' play in the second half East Pittsburg made their first goal, although the player who made it was clearly offside. This took the heart out of the Rovers and the other three goals followed in quick succession.

Change in Time of Trains on Pennsylvania Lines.

Under a new schedule in effect November 25th, 1900, passenger trains over the Pennsylvania lines leave East Liverpool passenger station as follows:

For the east—3:56 a. m., 6:51 a. m., 11:21 a. m., 3:06 p. m., 7 p. m.

For the west—12:36 a. m., 7:05 a. m., 9:06 a. m., 2:50 p. m., 6:13 p. m.

Sunday trains—East, 5:25 p. m.; west, 9:06 a. m.

For particular information on the subject apply to A. Hill, ticket agent.

—Mrs. Oliver Ashbaugh, of East Palestine, is visiting her son, Lyle Ashbaugh, Jackson street.

GOING DOWN

The Marks at the Wharf Registered 15 Feet And Falling This Morning.

The river fell very fast the past two days and this morning the marks at the wharf registered 15 feet and falling.

The Lorena and Greenwood passed up last night for Pittsburg and the Avalon passed down for Parkersburg.

The Virginia and City of Wheeling passed up today for Pittsburg. All the boats did a good business at this place.

Several of the large boats passed down yesterday with heavy tows for southern points, and the small boats are hurrying to Pittsburg in order that they may get all the coal out possible before the river gets low.

A number of boats tied up along the beach between this city and Wellsville last night.

NEW OFFICERS

Local Union No. 12 Held an Election at Their Last Regular Meeting.

Local union No. 12, N. B. of O. P., at their last meeting elected the following officers to serve during the coming year:

President, George Wilson; vice president, George White; recording secretary, William Anderson; financial secretary, Thomas Higgins; treasurer, Leroy Orr; statistician, J. M. Grafton; inspector, George Schepp; outside guard, Charles Durff; trustees, John Reark and Charles Durff.

The meeting was well attended and some of the contests were spirited. The newly elected officers will be installed at the next regular meeting, December 4.

GOOD ROADS DESIRED.

Wilson's Report Says There Are Many Inquiries.

FOUR EXPERT AGENTS APPOINTED.

Figures Show Extent of Cattle and Meat Inspection—Treatment of Animal Diseases—Work Begun on Model Farm. Exports—Some Other Points.

Washington, Nov. 30.—The report of Secretary of Agriculture Wilson in part contains the following:

Important extensions of the weather bureau work have been made during the past year.

The number of abattoirs and packing houses receiving the benefit of inspection was 148 in 45 localities as against 138 in 41 localities the preceding year. The total ante-mortem inspection of cattle aggregated 53,087,994; animals rejected, subject to post-mortem, at abattoirs, 5,958; and in stock yards, 153,561. The total post-mortem inspections were 34,737,613, and the total carcasses condemned, 61,906. In the microscopic inspection of pork 999,554 carcasses were examined. Of these but 19,448, or 1.95 per cent, were found to contain living trichinae. The total cost of inspection was but a few dollars over \$700,000. Of vessels inspected by officers of the bureau 862 received clearances. Of the cattle shipped across the Atlantic, the loss amounted to but .24 per cent; of sheep, .71 per cent, and of horses, 2.55 per cent. It is interesting to note the great increase in the number of horses exported. Of these, over 29,000 were landed from American ports at London, Liverpool and Glasgow.

To Save Cattle From Inspection.

During the quarantine season of 1899 over a million cattle were moved under the supervision of the bureau from the district infected with the southern cattle tick. In Texas alone over 357,000 cattle were inspected for shipment to other sections. The sheep industry has suffered greatly from sheep scab, and much time and attention have been given to securing its control and eradication. Results so far are encouraging, and the secretary believes that a few more years of earnest work will effectually eradicate the disease. Over 1,800,000 sheep were inspected and nearly 627,000 dipped under the supervision of the inspectors.

The work of preparing serum for treating hog cholera and swine plague and experiments in treatment therewith are continued, with results which, while they do not justify definite conclusions as yet, are sufficiently encouraging to justify continued experiments, including some on entirely new lines.

Considerable space is given to the consideration of tuberculosis, "the most prevalent and most destructive disease effecting mankind and the domesticated animals."

Experimental shipments of dairy products are still continued, and shipments of butter have been extended to Cuba and Porto Rico. The department is seeking to obtain information useful to butter exporters in canning butter and producing butter especially adapted to shipment to warm countries. Some countries sending butter to these markets show a disposition to adapt their products to the needs of those countries, which is an example our producers must follow if they are to compete successfully with them. The secretary earnestly recommends an inspection of dairy products designed for export. He points out the example of other countries, whose large foreign trade in dairy products has been principally developed owing to the fact that their best products bear a government stamp, guaranteeing the article to be as represented.

Pure Food Congress Helped.

Active co-operation has been had with other bodies, notably the pure food congress, in an effort to secure legislation on the subject of food adulterations. National legislation on the subject is urged as essential to supplement and make efficient the work done in the several states. The sugar beet work has been prosecuted with vigor and intelligence. Foreign food products introduced into this country have been the subject of careful study. The results are confidential and are used for the information of the authorities of this country controlling imported food products.

Seed and plant introduction receives extensive notice, special stress being laid upon the importations of cereals, including the macaroni wheats of Southern Europe, of

grasses and forage plants, and of vegetables which have already demonstrated their virtue.

The relations of the division of forestry with practical lumbermen and tree planters have been closer and more useful than ever before. Tree planting plans were made for 69 applicants.

The department is receiving with increased frequency applications for planting and working plans for water sheds from which cities obtain their supplies. A typical instance is that of the water company of Johnstown, Pa., one of the chief objects being to prevent a recurrence of the disaster there.

Studies of commercial trees, with a view to ascertaining rate of growth and production and other facts germane to the best practical forestry, were considerably extended.

Much Interest In Good Roads.

There is much inquiry in all sections of the United States regarding better roads and better methods of building them. It has been deemed wise to divide the country into four sections, and to appoint in each an expert agent. This has been done, and one appointed in the eastern states, one in the southern, one in the prairie states and another in the Rocky mountain states. These gentlemen are to study the needs of these several sections, give instruction as to road building, and report regularly to the department. They will, moreover, supply samples of road material for analysis and testing, a testing machine having been arranged for in the laboratory of the division of chemistry, to be operated by an expert under the joint supervision of the director of road inquiry and the chief chemist.

Much work has been done in the past year in co-operating with the colleges and stations and the people of the several states in building experimental roads, and generous acknowledgment is made of the services contributed to the cause of good roads by the various transportation companies throughout the country.

The secretary reviews at considerable length the work of the experiment stations.

During the fiscal years 1897-1900 our total sales of domestic farm products to foreign countries aggregated the enormous sum of \$3,186,000,000, an excess of \$800,000,000 over the preceding four-year period. The agricultural exports of the United States for the past fiscal year amounted to \$844,000,000. The rapid growth of our export trade to the Orient in recent years is most striking. Five years ago our total shipments of domestic merchandise to Asia and Oceania were valued at \$43,000,000, of which only \$9,700,000 were agricultural. There has been a steady increase in each succeeding year, until in 1900 our export trade with the Orient amounted to \$107,000,000, of which \$30,000,000 worth was farm produce. Of this great increase in the growth of our agricultural exports to that quarter of the globe, amounting to something over \$20,000,000, \$11,500,000 consisted of cotton, and \$3,400,000 of wheat flour.

Markets In New Possessions.

During the past fiscal year Cuba, Porto Rico, the Hawaiian Islands and the Philippines furnished a market for \$45,000,000 worth of our domestic products. Five years ago these islands took but \$13,000,000 worth. During the fiscal year 1900 we sold to these islands \$20,000,000 worth of farm produce, an increase of \$13,700,000 over 1896.

Appropriations for the department for the fiscal year ended June 30, 1900, amounted to \$3,006,022, an excess over 1899 of \$176,320. In addition, the usual sum of \$720,000 was provided for division among the state agricultural stations. Expenditures and liabilities incurred during the year were \$2,975,000. During the year \$4,440 was paid for the rental of leased buildings in Washington.

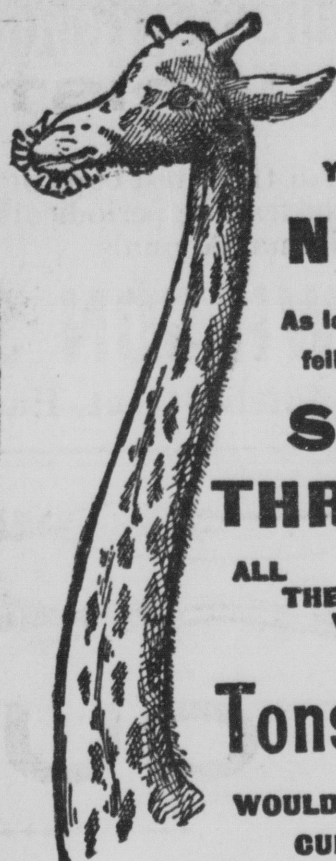

The final official list of the Paris exposition awards has not yet reached the department, but preliminary reports supplied by its representatives in Paris record about 500 awards to United States exhibitors in agricultural, horticultural and food products. The United States was also generously considered in the forestry and tobacco classes.

An urgent recommendation is made for the erection of new, fireproof laboratory buildings, which, it is estimated, will cost about \$200,000.

Under the authority of congress work has been begun on the Arlington estate with a view to establishing an experimental farm on the land set apart for the use of the department.

GOOD ROADS DESIRED.

Wilson's Report Says There Are Many Inquiries.

FOUR EXPERT AGENTS APPOINTED.

Figures Show Extent of Cattle and Meat Inspection—Treatment of Animal Diseases—Work Begun on Model Farm. Exports—Some Other Points.

Washington, Nov. 30.—The report of Secretary of Agriculture Wilson in part contains the following:

Important extensions of the weather bureau work have been made during the past year.

The number of abattoirs and packing houses receiving the benefit of inspection was 148 in 45 localities, as against 138 in 41 localities the preceding year. The total ante-mortem inspection of cattle aggregated 53,087,994; animals rejected, subject to post-mortem, at abattoirs, 5,958; and in stock yards, 153,561. The total post-mortem inspections were 34,737,613, and the total carcasses condemned, 61,906. In the microscopic inspection of pork 999,554 carcasses were examined. Of these but 19,448, or 1.95 per cent, were found to contain living trichinae. The total cost of inspection was but a few dollars over \$700,000. Of vessels inspected by officers of the bureau 862 received clearances. Of the cattle shipped across the Atlantic, the loss amounted to but .24 per cent; of sheep, .71 per cent, and of horses, 2.55 per cent. It is interesting to note the great increase in the number of horses exported. Of these, over 29,000 were landed from American ports at London, Liverpool and Glasgow.

To Save Cattle From Inspection.

During the quarantine season of 1899 over a million cattle were moved under the supervision of the bureau from the district infected with the southern cattle tick. In Texas alone over 357,000 cattle were inspected for shipment to other sections. The sheep industry has suffered greatly from sheep scab, and much time and attention have been given to securing its control and eradication. Results so far are encouraging, and the secretary believes that a few more years of earnest work will effectually eradicate the disease. Over 1,800,000 sheep were inspected and nearly 627,000 dipped under the supervision of the inspectors.

The work of preparing serum for treating hog cholera and swine plague and experiments in treatment therewith are continued, with results which, while they do not justify definite conclusions as yet, are sufficiently encouraging to justify continued experiments, including some on entirely new lines.

Considerable space is given to the consideration of tuberculosis, "the most prevalent and most destructive disease affecting mankind and the domesticated animals."

Experimental shipments of dairy products are still continued, and shipments of butter have been extended to Cuba and Porto Rico. The department is seeking to obtain information useful to butter exporters in canning butter and producing butter especially adapted to shipment to warm countries. Some countries sending butter to these markets show a disposition to adapt their products to the needs of those countries, which is an example our producers must follow if they are to compete successfully with them. The secretary earnestly recommends an inspection of dairy products designed for export. He points out the example of other countries, whose large foreign trade in dairy products has been principally developed owing to the fact that their best products bear a government stamp, guaranteeing the article to be as represented.

Pure Food Congress Helped.

Active co-operation has been had with other bodies, notably the pure food congress, in an effort to secure legislation on the subject of food adulterations. National legislation on the subject is urged as essential to supplement and make efficient the work done in the several states. The sugar beet work has been prosecuted with vigor and intelligence. Foreign food products introduced into this country have been the subject of careful study. The results are confidential and are used for the information of the authorities of this country controlling imported food products.

Seed and plant introduction receives extensive notice, special stress being laid upon the importations of cereals, including the macaroni wheats of Southern Europe, of

grasses and forage plants, and of vegetables, which have already demonstrated their virtue.

The relations of the division of forestry with practical lumbermen and tree planters have been closer and more useful than ever before. Tree planting plans were made for 69 applicants.

The department is receiving with increased frequency applications for planting and working plans for water sheds from which cities obtain their supplies. A typical instance is that of the water company of Johnstown, Pa., one of the chief objects being to prevent a recurrence of the disaster there.

Studies of commercial trees, with a view to ascertaining rate of growth and production and other facts germane to the best practical forestry, were considerably extended.

Much Interest In Good Roads.

There is much inquiry in all sections of the United States regarding better roads and better methods of building them. It has been deemed wise to divide the country into four sections, and to appoint in each an expert agent. This has been done, and one appointed in the eastern states, one in the southern, one in the prairie states and another in the Rocky mountain states. These gentlemen are to study the needs of these several sections, give instruction as to road building, and report regularly to the department. They will, moreover, supply samples of road material for analysis and testing, a testing machine having been arranged for in the laboratory of the division of chemistry, to be operated by an expert under the joint supervision of the director of road inquiry and the chief chemist.

Much work has been done in the past year in co-operating with the colleges and stations and the people of the several states in building experimental roads, and generous acknowledgments are made of the services contributed to the cause of good roads by the various transportation companies throughout the country.

The secretary reviews at considerable length the work of the experiment stations.

During the fiscal years 1897-1900 our total sales of domestic farm products to foreign countries aggregated the enormous sum of \$3,186,000,000, an excess of \$800,000,000 over the preceding four-year period. The agricultural exports of the United States for the past fiscal year amounted to \$844,000,000. The rapid growth of our export trade to the Orient in recent years is most striking. Five years ago our total shipments of domestic merchandise to Asia and Oceania were valued at \$43,000,000, of which only \$9,700,000 were agricultural. There has been a steady increase in each succeeding year, until in 1900 our export trade with the Orient amounted to \$107,000,000, of which \$30,000,000 worth was farm produce. Of this great increase in the growth of our agricultural exports to that quarter of the globe, amounting to something over \$20,000,000, \$11,500,000 consisted of cotton, and \$3,400,000 of wheat flour.

Cakes In New Possessions.

During the past fiscal year Cuba, Porto Rico, the Hawaiian Islands and the Philippines furnished a market for \$45,000,000 worth of our domestic products. Five years ago these islands took but \$13,000,000 worth. During the fiscal year 1900 we sold to these islands \$20,000,000 worth of farm produce, an increase of \$13,700,000 over 1896.

Appropriations for the department for the fiscal year ended June 30, 1900, amounted to \$3,006,022, an excess over 1899 of \$176,320. In addition, the usual sum of \$720,000 was provided for division among the state agricultural stations. Expenditures and liabilities incurred during the year were \$2,975,000. During the year \$4,440 was paid for the rental of leased buildings in Washington.

The final official list of the Paris exposition awards has not yet reached the department, but preliminary reports supplied by its representatives in Paris record about 500 awards to United States exhibitors in agricultural, horticultural and food products. The United States was also generously considered in the forestry and tobacco classes.

An urgent recommendation is made for the erection of new, fireproof laboratory buildings, which, it is estimated, will cost about \$200,000.

Under the authority of congress work has been begun on the Arlington estate with a view to establishing an experimental farm on the land set apart for the use of the department.

Niece of Late Envoy Married.

London, Nov. 30.—Miss Helen Johnson, a niece of ex-Ambassador to France J. B. Ennis, was married to Captain Ainsley. The marriage was quiet and was performed by Mgr. Vaughan.

Purchased a Stable.

Joseph Bowers, of Knoxville, O., has purchased the livery stable owned by J. W. Brunson. He will take possession of the stable tomorrow.

New Water Line.

The water line on Virginia avenue has been completed as far as the livery stable. The work will be finished within a few days.

Visited in Chester.

John Hague, who resides near Asbury church, was in Chester yesterday the guest of Mr. and Mrs. Thompson Allison.

Visiting Her Brother.

Miss Mary Lewis, of Wheeling, was in Chester yesterday the guest of her brother, Dr. G. E. Lewis.

Dornan Went Hunting.

E. E. Dornan spent yesterday hunting near New Cumberland.

A PRETTY WEDDING.

Robert H. Perry and Miss Ada Crofts were united in marriage Wednesday Evening.

On Wednesday evening, November 28, Robert H. Perry and Miss Ada Crofts were united in marriage.

The groom is a well known and popular salesman for the Hard Furniture company, a graduate of Volant college and has a host of friends in this community.

The bride is the youngest daughter of John B. Crofts, Esq., president of the County Farmer's association, and one of the leading agriculturalists of Columbiana county. She is a sister of Miss Mary Crofts, principal of the Sheridan avenue school.

The ceremony was performed at the residence of the bride's parents by Rev. Snyder, pastor of Long's Run Presbyterian church, in the presence of the immediate relatives of the bride and groom. An elegant supper was served.

After a brief visit among friends, Mr. and Mrs. Perry will make their home in this city.

Those in attendance were: Mr. and Mrs. William Rolley and son, Mr. and Mrs. Joseph Naylor and son, Wellsville, and Mrs. John Brothers and John Draper, of East Liverpool. Music was afforded by Miss Mary Johns, of Wellsville. The day will long be remembered by all present.

ANNIE REED

Has Filed an Action in Court Against the Executors of Her Father's Estate.

Lisbon, Nov. 30.—(Special.)—Annie Reed, an heir and legatee of the late Thomas Smith, of East Liverpool, has entered suit against W. N. Calhoun and Jessie H. Smith, executors of the estate of her father, making serious accusations against Calhoun.

She states that the deceased died on April 20 last, and although she was an heir to the estate she had no notice of the application to probate the will and she now claims that the will was materially altered in one clause after the same had been executed; Calhoun inserting the following words: "I further direct that after the death my daughter, Annie Reed, that all I have bequeathed to her, both personal and real, be divided equally among her children, share and share alike."

Mrs. Reed asks that this clause, inserted as she says by Calhoun, may be declared null and void and the will be established as it read before the alteration took place.

The deceased bequeathed to his daughter 200 acres of land in Beaver county, Pa., and also sufficient money to pay off a mortgage against her husband's farm, which adjoined the one bequeathed to her.

Hassey's Saturday Special Sale.

ANNIE REED

Has Filed an Action in Court Against the Executors of Her Father's Estate.

Lisbon, Nov. 30.—(Special.)—Annie Reed, an heir and legatee of the late Thomas Smith, of East Liverpool, has entered suit against W. N. Calhoun and Jessie H. Smith, executors of the estate of her father, making serious accusations against Calhoun.

She states that the deceased died on April 20 last, and although she was an heir to the estate she had no notice of the application to probate the will and she now claims that the will was materially altered in one clause after the same had been executed; Calhoun inserting the following words: "I further direct that after the death my daughter, Annie Reed, that all I have bequeathed to her, both personal and real, be divided equally among her children, share and share alike."

Mrs. Reed asks that this clause, inserted as she says by Calhoun, may be declared null and void and the will be established as it read before the alteration took place.

The deceased bequeathed to his daughter 200 acres of land in Beaver county, Pa., and also sufficient money to pay off a mortgage against her husband's farm, which adjoined the one bequeathed to her.

Hassey's Saturday Special Sale.

—Mr. and Mrs. E. W. Hill, of Seventh street, spent Thanksgiving with Mrs. Hill's parents at Salineville.

Dornan Went Hunting.

E. E. Dornan spent yesterday hunting near New Cumberland.

A PRETTY WEDDING.

Robert H. Perry and Miss Ada Crofts Were United in Marriage Wednesday Evening.

On Wednesday evening, November 28, Robert H. Perry and Miss Ada Crofts were united in marriage.

The groom is a well known and popular salesman for the Hard Furniture company, a graduate of Volant college and has a host of friends in this community.

The bride is the youngest daughter of John B. Crofts, Esq., president of the County Farmer's association, and one of the leading agriculturalists of Columbiana county. She is a sister of Miss Mary Crofts, principal of the Sheridan avenue school.

The ceremony was performed at the residence of the bride's parents by Rev. Snyder, pastor of Long's Run Presbyterian church, in the presence of the immediate relatives of the bride and groom. An elegant supper was served.

After a brief visit among friends, Mr. and Mrs. Perry will make their home in this city.

ANNIE REED

Has Filed an Action in Court Against the Executors of Her Father's Estate.

Lisbon, Nov. 30.—(Special.)—Annie Reed, an heir and legatee of the late Thomas Smith, of East Liverpool, has entered suit against W. N. Calhoun and Jessie H. Smith, executors of the estate of her father, making serious accusations against Calhoun.

She states that the deceased died on April 20 last, and although she was an heir to the estate she had no notice of the application to probate the will and she now claims that the will was materially altered in one clause after the same had been executed; Calhoun inserting the following words: "I further direct that after the death my daughter, Annie Reed, that all I have bequeathed to her, both personal and real, be divided equally among her children, share and share alike."

Mrs. Reed asks that this clause, inserted as she says by Calhoun, may be declared null and void and the will be established as it read before the alteration took place.

The deceased bequeathed to his daughter 200 acres of land in Beaver county, Pa., and also sufficient money to pay off a mortgage against her husband's farm, which adjoined the one bequeathed to her.

CHAS. RALSTON'S RUN OF BAD LUCK

Had Just Recovered From a Severe
Attack of Typhoid Fever
and Had

RETURNED TO HIS WORK

Three Bungs of Saggars Fell and
Ralston Was Caught Be-
neath Them.

WILL BE OFF FOR SEVERAL DAYS

Charles Ralston, a kiln drawer at the Dresden, certainly has a little more than his share of ill luck.

The young man had just recovered from an attack of typhoid fever and started to work less than two weeks ago. He was taken ill several weeks ago and went to his home in Toronto, where he had a long siege of the disease.

He left his boarding house yesterday morning for work and had not been engaged at his work half an hour when three bungs of saggars fell, almost covering the man with ware and broken saggars.

He was taken to the residence of Mrs. Nellie Fowler, on Sixth street, where he boards, in the patrol, and Dr. Hobbs summoned. It was found that his left arm was badly dislocated and it required some time to set the young man right.

The unfortunate gentleman is resting easy today, although it will be some time before he is able to return to work.

JAPS WERE HERE.

Two Well Educated Japanese Were in
the City Calling on
Friends.

Ennosuke Jinushi, of New York City, and S. Kinozan, of Kyoto, Japan, were in the city Wednesday calling on friends. They left on the evening train for Cincinnati.

Mr. Kinkozan has been visiting in this country for some time and will leave soon for his native country.

Mr. Jinushi speaks English well and both gentlemen were much pleased with the city.

EAST END.

A GOOD GAME.

The Royal Tigers Played Good Foot
Ball at Lisbon
Yesterday.

The foot ball game between the Royal Tigers of East End and the Lisbon team at Lisbon yesterday afternoon resulted in a tie, 5 to 5.

Lisbon made a touchdown in the first half by a series of fumbles on the part of the Liverpool people, but failed to kick goal. The Tigers were not very effective in the beginning, owing to the players not being properly placed, but they were adjusted in the second half, and they way they bucked that center was a caution, not a gain being less than seven yards. Their touchdown was made in the second half, and Wheatley missed the kick.

Allison's game leg gave out during the first half and he was compelled to retire.

The best of feeling prevailed throughout the game and not a kick was made on either side. The Tigers reached this city at midnight.

The teams lined up as follows:

Lisbon.	Tigers.
Archibald .. Right end.....	Orr
Skilcum .. Right tackle..	O'Malley
Nicholas .. Right guard....	Ward
Gallagher .. Center.....	Searight
Marquis .. Left guard..	Goodballet
Herbert .. Left tackle....	Howard
Dilliand .. Left end.....	Wilson
Steele .. Right half.....	Hendricks
Bowman .. Left half.....	McLane
Jenkins .. Quarterback..	Stevenson
Rupp .. Fullback....	Wheatley
C. C. Connell, referee; J. Curry, umpire.	

Thanksgiving Services.

Thanksgiving services were held in the Second Presbyterian church last night, Rev. McKinley, of Steubenville, occupying the pulpit. The service was very interesting. Miss Blanch Bray, of Industry, was present and sang two very fine solos.

Union Services.

The union services held in the Second United Presbyterian church yesterday morning were well attended and very interesting.

Rev. N. M. Crowe preached a masterly sermon. The music was a special feature.

Notes of East End.

A little daughter of Mr. and Mrs. Rev. Crowe, of Pennsylvania avenue, is ill.

Miss Mary Madison returned last evening from Salineville, where she spent Thanksgiving with her parents.

Mrs. Prudence, of Southern Virginia, is a guest at the home of Mrs. Hamilton, Ohio avenue.

Frank T. Searight, police court reporter on the Cleveland Press, spent

yesterday at the home of his parents on Pennsylvania avenue.

Miss Maud Munnell, of Crafton, Pa., is a guest of East End friends.

On Wednesday evening after prayer meeting the members of the Second Methodist Episcopal church presented Rev. Orcutt, pastor of the church, with a substantial token of their appreciation of his untiring devotion to the church.

East Liverpool Team Loses.

The basket ball team of the Wilmerding Y. M. C. A. opened up the season with the team from East Liverpool, O., winning by a score of 23 to 6. Line up:

Wilmerding.	East Liverpool.
Horracks .. Left forward	Uslar
Woods .. Right forward	Allison
Scott .. Center.....	Pope
Lambie .. Left guard..	McCullough
Deevers .. Right guard..	Chadwick

Goals from field—Woods, 6; Lambie, 2; Deevers, Horracks, Scott, Pope. Goals from foul—Allison, 2; Lambie. Referee—C. H. Burkhardt. Umpire—H. J. Alcott, of East Liverpool. Time—20-minute halves. Substitutes—Bostock for Uslar.

WANTED—Good cooper. Apply to R. P. Fowler, Sebring, Ohio. Good job for good workman.

CHAS. RALSTON'S RUN OF BAD LUCK

Had Just Recovered From a Severe
Attack of Typhoid Fever
and Had

RETURNED TO HIS WORK

Three Bungs of Saggars Fell and
Ralston Was Caught Be-
neath Them.

WILL BE OFF FOR SEVERAL DAYS

Charles Ralston, a kiln drawer at
the Dresden, certainly has a little
more than his share of ill luck.

The young man had just recovered
from an attack of typhoid fever and
started to work less than two weeks
ago. He was taken ill several weeks
ago and went to his home in Toronto,
where he had a long siege of the
disease.

He left his boarding house yester-
day morning for work and had not
been engaged at his work half an
hour when three bungs of saggars
fell, almost covering the man with
ware and broken saggars.

He was taken to the residence of
Mrs. Nellie Fowler, on Sixth street,
where he boards, in the patrol, and
Dr. Hobbs summoned. It was found
that his left arm was badly dislocated
and it required some time to set the
young man right.

The unfortunate gentleman is rest-
ing easy today, although it will be
some time before he is able to return
to work.

JAPS WERE HERE.

Two Well Educated Japanese Were in
the City Calling on
Friends.

Ennosuke Jinushi, of New York
City, and S. Kinozan, of Kyoto, Japan,
were in the city Wednesday calling
on friends. They left on the evening
train for Cincinnati.

Mr. Kinkozan has been visiting in
this country for some time and will
leave soon for his native country.

Mr. Jinushi speaks English well
and both gentlemen were much pleas-
ed with the city.

EAST END.

A GOOD GAME.

The Royal Tigers Played Good Foot
Ball at Lisbon
Yesterday.

The foot ball game between the
Royal Tigers of East End and the Lis-
bon team at Lisbon yesterday after-
noon resulted in a tie, 5 to 5.

Lisbon made a touchdown in the
first half by a series of fumbles on
the part of the Liverpool people, but
failed to kick goal. The Tigers were
not very effective in the beginning,
owing to the players not being prop-
erly placed, but they were adjusted in
the second half, and they way they
bucked that center was a caution, not
a gain being less than seven yards.
Their touchdown was made in the sec-
ond half, and Wheatley missed the
kick.

Allison's game leg gave out during
the first half and he was compelled to
retire.

The best of feeling prevailed
throughout the game and not a kick
was made on either side. The Tigers
reached this city at midnight.

The teams lined up as follows:

Lisbon.	Tigers.
Archibald ..Right end..... Orr	Skillcum ..Right tackle... O'Malley
Nicholas ..Right guard.... Ward	Gallagher ..Center..... Searight
Marquis ..Left guard... Goodballet	Herbert ..Left tackle... Howard
Dilland ..Left end..... Wilson	Steele ..Right half..... Hendricks
Bowman ..Left half..... McLane	Jenkins ..Quarterback.. Stevenson
Rupp ..Fullback..... Wheatley	C: C. Connell, referee; J. Curry, um- pire.

Thanksgiving Services.

Thanksgiving services were held in
the Second Presbyterian church last
night, Rev. McKinley, of Steubenville,
occupying the pulpit. The service
was very interesting. Miss Blanch
Bray, of Industry, was present and
sang two very fine solos.

Union Services.

The union services held in the Sec-
ond United Presbyterian church yester-
day morning were well attended
and very interesting.

Rev. N. M. Crowe preached a mas-
terly sermon. The music was a spec-
tacular feature.

Notes of East End.

A little daughter of Mr. and Mrs.
Rev. Crowe, of Pennsylvania avenue,
is ill.

Miss Mary Madison returned last
evening from Salineville, where she
spent Thanksgiving with her parents.

Mrs. Prudence, of Southern Vir-
ginia, is a guest at the home of Mrs.
Hamilton, Ohio avenue.

Frank T. Searight, police court re-
porter on the Cleveland Press, spent

yesterday at the home of his parents
on Pennsylvania avenue.

Miss Maud Munnell, of Crafton, Pa.,
is a guest of East End friends.

On Wednesday evening after prayer
meeting the members of the Second
Methodist Episcopal church presented
Rev. Orcutt, pastor of the church, with
a substantial token of their apprecia-
tion of his untiring devotion to the
church.

East Liverpool Team Loses.

The basket ball team of the Wil-
merding Y. M. C. A. opened up the sea-
son with the team from East Liver-
pool, O., winning by a score of 23 to 6.
Line up:

Wilmerding.	East Liverpool.
Horracks ..Left forward	Usler
Woods ..Right forward	Allison
Scott ..Center.....	Pope
Lambie ..Left guard..	McCullough
Deevers ..Right guard..	Chadwick

Goals from field—Woods, 6; Lam-
bie, 2; Deevers, Horracks, Scott, Pope.
Goals from foul—Allison, 2; Lambie.
Referee—C. H. Burkhardt. Umpire—
H. J. Alcott, of East Liverpool. Time
—20-minute halves. Substitutes—
Bostock for Usler.

WANTED—Good cooper. Apply to R.
P. Fowler, Sebring, Ohio. Good job
for good workman.

WANTED!

LOCAL BREVITIES.

The electric light at the corner of Seventh and Jackson streets has been out for several nights.

Kenneth, the three-year-old son of Mr. and Mrs. E. H. Sebring, Sixth street, is ill with tonsillitis.

Euphernice, the small daughter of Mr. and Mrs. Fred Anderson, Franklin street, is afflicted with measles.

Mr. and Mrs. Hileman have returned to their home in Gardendale after a visit with relatives down the river.

Executions to the number of seven were issued in delinquent tax suits in the court of Squire McCarron this morning.

The sophomore and freshmen class foot ball clubs failed to play this morning and a game may be played tomorrow morning.

The National Guards, Jr., and the Royal Tigers, Jr., played a foot ball game yesterday morning at East End. The Guards won by a score of 5 to 0.

The three daughters of Mr. and Mrs. Samuel Hineman, West End, have so far recovered from their recent illness as to be able to return to work.

Rev. T. C. Pollock, of Cambridge, is assisting this week at special services at the First U. P. church. He will preach this evening and will occupy the pulpit on Sunday.

The members of the Belmont club and their lady friends enjoyed a very pleasant evening at their rooms in the Thompson building last night. Dancing was the principal amusement.

The four-year-old child of Mr. and Mrs. John Tarr died Wednesday from an attack of measles. The funeral services took place this afternoon from the home on Trentvale street.

The game to have been played yesterday between the East Liverpool and Wellsville high school foot ball teams was declared off. Wellsville booking another game in the morning.

Willis L. Headley and Miss Annie Lowe were united in marriage last evening at 7:30 o'clock at the First M. E. parsonage, Rev. Clark Crawford officiating. The happy couple will make their home in this city.

The Junior Mechanics held no meeting last night, owing to it being Thanksgiving, and the organization will not get together until next Thursday, on which occasion the regular election of officers will be held.

The Thanksgiving services held yesterday morning at the Christian church were largely attended and Dr. Taggart delivered an interesting sermon. The collection amounted to \$23.23 and was given to the hospital association.

The seven-weeks-old child of Mr. and Mrs. William Maley died yesterday at their home on Market street. The funeral took place this afternoon at 4 o'clock from St. Aloysius' church. Interment was made in the Catholic cemetery.

The four-year-old child of Mr. and Mrs. Homer Jordan died at their home on Lisbon street yesterday from measles. The funeral will take place tomorrow morning at 10 o'clock, and Rev. Clark Crawford will officiate. Interment will be made at Spring Grove cemetery.

ROASTED TO DEATH.

About 75 People Fell on Glass Furnaces and Vats.

NINE DEAD; OTHERS MAY DIE.

Fully 50 Persons Were Badly Injured. Roof of the Pacific Glassworks in San Francisco Fell With Some Spectators of a Football Game.

San Francisco, Nov. 30.—Nine people were killed and fully 50 badly injured by the collapse of the roof of the Pacific glass works, on Fifteenth street, while it was crowded with men and boys watching a football game on the field adjoining. About 75 people fell through the roof upon the red hot furnaces and glass vats below. All were horribly burned, and it is feared that in addition to the nine deaths reported there will be several more.

The dead:

J. A. Mulrooney.
W. H. Eckfeldt.
Edgar Flahoin.
T. J. Rippon.
William Valencia.
M. Vandina.
Three unidentified.
Tallyrand Barnell.
Carroll Hold.
Frank Newby.
— Fox.

Eighty-two persons, more or less injured, have been taken to the various hospitals or removed to their homes.

The victims were watching a football game between the Stanford and University of California teams, when the roof beneath them gave way. Some of them fell on the furnaces and one man of unknown identity was burned almost to a crisp.

There were about 200 people on the roof when it collapsed, and of these about 54 went through. Those who were fortunate enough to be on a solid section of the building hurried down and helped remove the injured. The heat around the furnaces was so great, however, that to some of the victims no assistance could be rendered, and they slowly roasted to death. Not 200 yards away were about 20,000 people, watching the football game, and when the news became known there was intense excitement among them. The ushers went through the crowd calling for doctors, and many surgeons hurriedly left the game. The living victims of the disaster were taken to some of the different hospitals and nearby drugstores.

The coroner did not have enough wagons to remove the dead and they were taken away in express wagons. Many private carriages were waiting outside the football grounds, and these were pressed into service to take away the wounded.

So far as known this list comprises all the dead, as the first reports were exaggerated. It is reported that one man, Joseph Gumper, fell into the furnace and his body was incinerated.

The manager of the glass works realized the danger before the accident occurred and had sent for the police to compel the crowd to leave. Just as a squad of officers arrived from the city hall the roof went down.

FAVERSHAM VERY ILL.

Fatal Result Feared From an Operation on the Actor For Appendicitis.

New York, Nov. 30.—William Faversham, the actor, is dying of appendicitis. An operation was performed two days ago, and his case, according to the physicians, is the worst in their experience. Mr. Faversham was taken ill in Boston, and was brought to New York by special train. It was a rather sad Thanksgiving at the Faversham home on Fifty-second street, although friends were constantly calling with flowers and kindly messages.

Mr. Faversham has been connected with the Frohman enterprises for 10 years, and was recently seen in Pittsburgh in "Lord and Lady Algy." He was to have appeared at the Empire on the last day of December in a new play, "Mrs. Deane's Defense."

Fireman Johnson Badly Hurt.

Alliance, O., Nov. 30.—The first section of passenger train No. 20, on the Fort Wayne road, was wrecked at Rome siding, about a mile and a half west of Maximo, by striking the rear end of an east-bound extra freight as it was entering the siding. Fireman Eli Johnson, of Crestline, O., was badly cut about the head and his collar bone was broken.

LOCAL BREVITIES.

The electric light at the corner of Seventh and Jackson streets has been out for several nights.

Kenneth, the three-year-old son of Mr. and Mrs. E. H. Sebring, Sixth street, is ill with tonsillitis.

Euphernice, the small daughter of Mr. and Mrs. Fred Anderson, Franklin street, is afflicted with measles.

Mr. and Mrs. Hileman have returned to their home in Gardendale after a visit with relatives down the river.

Executions to the number of seven were issued in delinquent tax suits in the court of Squire McCarron this morning.

The sophomore and freshmen class foot ball clubs failed to play this morning and a game may be played tomorrow morning.

The National Guards, Jr., and the Royal Tigers, Jr., played a foot ball game yesterday morning at East End. The Guards won by a score of 5 to 0.

The three daughters of Mr. and Mrs. Samuel Hineman, West End, have so far recovered from their recent illness as to be able to return to work.

Rev. T. C. Pollock, of Cambridge, is assisting this week at special services at the First U. P. church. He will preach this evening and will occupy the pulpit on Sunday.

The members of the Belmont club and their lady friends enjoyed a very pleasant evening at their rooms in the Thompson building last night. Dancing was the principal amusement.

The four-year-old child of Mr. and Mrs. John Tarr died Wednesday from an attack of measles. The funeral services took place this afternoon from the home on Trentvale street.

The game to have been played yesterday between the East Liverpool and Wellsville high school foot ball teams was declared off, Wellsville booking another game in the morning.

Willis L. Headley and Miss Annie Lowe were united in marriage last evening at 7:30 o'clock at the First M. E. parsonage, Rev. Clark Crawford officiating. The happy couple will make their home in this city.

The Junior Mechanics held no meeting last night, owing to it being Thanksgiving, and the organization will not get together until next Thursday, on which occasion the regular election of officers will be held.

The Thanksgiving services held yesterday morning at the Christian church were largely attended and Dr. Taggart delivered an interesting sermon. The collection amounted to \$23.23 and was given to the hospital association.

The seven-weeks-old child of Mr. and Mrs. William Maley died yesterday at their home on Market street. The funeral took place this afternoon at 4 o'clock from St. Aloysius' church. Interment was made in the Catholic cemetery.

The four-year-old child of Mr. and Mrs. Homer Jordan died at their home on Lisbon street yesterday from measles. The funeral will take place tomorrow morning at 10 o'clock, and Rev. Clark Crawford will officiate. Interment will be made at Spring Grove cemetery.

ROASTED TO DEATH.

About 75 People Fell on Glass Furnaces and Vats.

NINE DEAD; OTHERS MAY DIE.

Fully 50 Persons Were Badly Injured. Roof of the Pacific Glassworks in San Francisco Fell With Some Spectators of a Football Game.

San Francisco, Nov. 30.—Nine people were killed and fully 50 badly injured by the collapse of the roof of the Pacific glass works, on Fifteenth street, while it was crowded with men and boys watching a football game on the field adjoining. About 75 people fell through the roof upon the red hot furnaces and glass vats below. All were horribly burned, and it is feared that in addition to the nine deaths reported there will be several more.

The dead:
J. A. Mulrooney.
W. H. Eckfeldt.
Edgar Flaheim.
T. J. Rippon.
William Valencia.
M. Vandina.
Three unidentified.

THE EVENING NEWS REVIEW.

16TH YEAR. NO. 147.

EAST LIVERPOOL, O., FRIDAY, NOVEMBER 30, 1900.

TWO CENTS

MESSANGER CASEY A MARRIED MAN

**Sad News Was Taken to His Wife
and Two Children by a
Brother.**

HE WAS 42 YEARS OF AGE

**Had Been a Trusted Employee
of This Company For
15 Years.**

COUGHANOUR IS SERIOUSLY ILL

The Cleveland Leader of yesterday prints the story of how the sad news of the death of Express Messenger Casey was conveyed to his wife. The article is as follows:

On a special train made up where the Cleveland & Pittsburg railway passenger train went into the river, Engineer Albert Coughanour, whose leg was so badly crushed that it had to be amputated, and William McIlvane, the Pullman porter, arrived in the city at 8:25 o'clock Wednesday morning.

Messenger Casey lived at No. 125 Davenport street. He was 42 years of age and had been employed by the Adams Express company for 15 years. Conductor Connell was standing in the door of the second coach when the train left the rails. The conductor was thrown forward, but managed to get to shore, a few feet distant. He lives at No. 16 Dunham place. Coughanour was removed to the Cleveland General hospital.

The Message of Death, which brought grief and sorrow to the home of Michael Casey, the express messenger, at No. 125 Davenport street, was carried by the dead man's brother, John Casey.

Mrs. Casey and her two children, Elmer and Maynard, the latter a mere babe, were at the breakfast table when the news of the wreck reached them. John Casey went to the house and from the expression on his face Mrs. Casey saw that something had happened. Knowing that her husband should have been home at that time, she divined what it was. John Casey told her what had occurred as simply and in as few words as he could. Mrs. Casey could hardly believe that it was true, and said that until she had seen her husband's dead body she would not believe it. It was a grief stricken trio that stood in the little home, when later reports confirmed the sad news. Casey was 42 years old. For 15 years he had been employed by the Adams Express company. He started there as a driver. Later he worked in the office, and was then employed as messenger between this city and Pittsburg. He was a faithful employee.

When he left here at 3 o'clock Monday afternoon he intended taking the next train back when he reached Pittsburg. This would bring him back here at 5 o'clock Wednesday morning. He would not have to go back to work until Thursday morning. However, he could have left Pittsburg Wednesday morning and arrived here about noon. On the Cleveland & Pittsburg run it is necessary for the Cleveland express messenger to take the next train back at Pittsburg and for the Pittsburg messenger to take the next train back when he arrives here, thus giving each man more time at his home.

When the news of the accident was first told Mrs. Casey, she hoped that her husband had not taken the first train for home. He was, however, in a hurry to get home to his family and rode on the ill-fated train.

That none of the passengers on the wrecked train were injured or killed is deemed almost a miracle by Conductor Connell. Regarding the accident Mr. Connell said yesterday:

"Just before the wreck occurred I was seated in the forward part of the day coach, near the door. I felt the coach tipping over and when the first jar came I opened the door. Then came a second jolt and I fell forward to the platform and rolled down and off the steps. I landed in water up to my knees, and only sustained a few scratches. The engine had plunged into the river and only the cab was clear from the water. The express car was entirely submerged. The baggage and mail cars were also in the water, but were not entirely submerged. It seems to be a miracle that the passenger coaches did not pile up on top of one another and that there was not a terrible loss of life. All the passengers were terribly excited, but they left the cars and it was found, barring a few scratches, all were safe. A tree growing at the bank of the river is what probably saved some of the cars from going into the stream. All of the cars back of the coach I was in swerved and ran into the tree, which in a measure, stopped them. Casey, the express messenger, was caught inside of his car, and if he was not fatally injured he was drowned, as the car he was in was under water."

On the arrival of the special train from the scene of the wreck, Albert Coughanour, the engineer of the wrecked train, was taken to the Cleveland General hospital. His condition was extremely serious. He was suffering from the wound he received in his right foot and a large gash in his right leg above the knee. He was also suffering from the exposure he had experienced.

Upon examination by Dr. Hobson it was found necessary to amputate the leg below the knee. Mrs. Coughanour was present at the hospital when her husband was brought in. She was terribly grieved and when told that his condition was very serious she was nearly prostrated. Coughanour was never very strong about the lungs, and as he was exposed to the wet and cold, it is feared that pneumonia will set in. In fact, he already has symptoms of the disease, and with the loss of blood and shock incident to the surgical operation he underwent grave fears are entertained for his recovery. At the hospital as he lay in a cot, Coughanour attempted to tell his wife his terrible experience, but was interrupted by the physicians, who forbade him in his weak condition to converse.

To the hospital attendants Mrs. Coughanour claimed that she was awakened early yesterday morning by hearing her husband's voice calling her. She said that she unbolted the door, thinking he could not get in, but he was not there. She said that she could not sleep any more and knew that something had happened to him. Mrs. Coughanour said that she was not surprised when she learned of the accident.

Mr. Coughanour lives at No. 1308 Superior street. He has a daughter aged 19 years, and a son 27 years old. He is 52 years old and has worked for the Cleveland & Pittsburg railroad for 32 years.

Last night Mr. Coughanour was placed under the influence of an anesthetic.

ENGINEER COUGHANOUR

When Coughanour found himself in

the river he was in the embrace of the current and was being borne rapidly with it. His crushed ankle and foot pained him severely, making his leg numb to the hip, but with the other foot and his hands, which had not been injured, although encumbered with his heavy clothing and his overalls, he struck out for the shore, leaving a trace of blood behind him in the flood. He was carried 300 yards before he began to make any headway, but at last seemed to be master of the situation and succeeded in reaching the bank. By the aid of underbrush and a few strong weeds he pulled himself out on the bank and with the coolness and steady nerve which only a stoical engineer possesses, he took off his dripping "jumper," tore away his shirt and bound his wounds. The blood was flowing and he knew at once that to save his life he must staunch its flow. How to do that was the question, there was no one near to help him and he was not aware whether any other person on the train had been saved. Resorting to a method well known in surgery he took a stick of wood and twisted the bandages so securely around his foot that he completely stopped the flow of blood. Then he fell on his face in a dead faint.

As soon as the passengers were released those who kept their heads began to look after the crew. Mr. Chapin, of Cleveland, searching along the shore came upon the prostrate body of Engineer Coughanour. He revived him by strenuous efforts and in a half fainting, half conscious condition the engineer rolled over on his back and asked:

"Are the passengers safe?"

HIS CONDITION CRITICAL.

Although the condition of Albert Coughanour, the engineer on the Cleveland & Pittsburg railway train that was wrecked at Beaver, Pa., Wednesday morning, was somewhat improved yesterday, his case is still very serious. The shock of the accident, the exposure, and the injuries he received, may yet prove too much for him to stand.

However, the physicians at the Cleveland General hospital stated yesterday that he was improved. Last evening A. D. Curtis, superintendent of the Adams Express company, and who resides at Columbus, passed through Cleveland on his way home from the scene of the accident. Regarding it he said:

"The body of Casey, the express messenger, has not been recovered yet. It is either lodged at the bottom or has gone down the river with the swift current. The river in the vicinity of the accident has been dragged, and for a distance of 250 miles, to Huntington, patrols have been stationed to watch for it if it should wash ashore. The safe which was in the express car was recovered. It contained all the valuables, which did not amount to much. The rest of the express matter consisted of oysters, so the loss will not amount to much. The debris has been cleared away and trains are now running regularly."

NOT YET

Has the Body of Express Messenger Casey, Who Lost His Life at Beaver, Been Recovered.

The body of Express Messenger Casey, lost in the wreck at Beaver, has not yet been recovered.

The report exclusively published in the News Review Wednesday evening that the express car had struck the Panhandle bridge at Steubenville and went to pieces was verified yesterday by all of the Pittsburg morning papers.

COLORED MEN HAD A FIGHT

**Mosby and Neal Came Together
Last Night and Some Blood
Was Spilled.**

BOTH OF THEM RUN IN

**Mosby Claims Neal Cut Him With
a Razor During the
Battle.**

COMMON DRUNKS ARRESTED

W. E. Neal and Ed Mosby, both colored, mixed up in a fight at the corner of Sixth and West Market streets last night between 11 and 12 o'clock.

Officers Mahony, Morris and Davidson appeared on the scene and they were taken to city hall in the patrol, where a charge of fighting was placed against Mosby and a charge of cutting with intent to wound was placed against Neal, it being claimed by Mosby that he cut him on the left arm with a razor.

Mosby was fined \$9 60 this morning, which he paid and was released. Neal was given a hearing this afternoon. He is employed by Walter Allen as a barber.

Martin Muldowney, who is employed by the East Liverpool street railway, filled up on booze yesterday and wound up last night at the McNicol pottery, where he proceeded to take a nap. He was discovered by the night watchman, who ordered him from the pottery, and he refused, starting to use profane language. The patrol was called and Fireman Wood arrested Martin. He was taken to city hall, where he was fined \$1 and costs. He is still in.

Wyllie, better known as "Zip" Farmer, celebrated Thanksgiving by getting drunk. He was very disorderly on Second street and was arrested by Fireman Bettridge and taken to city hall. He was fined \$3 and costs, and not having the necessary amount is still in.

Andrew Hare, of New Cumberland, was very drunk Wednesday night and was having what he considered fun at the saloon of Poker Anderson by yelling so loud that he could be heard for several squares. The residents of that vicinity were not much for that kind of fun and he was arrested by Firemen Wood and Bryan. He was taken to city hall in the patrol and was fined \$1 and costs, which he paid and was released.

Frank Kenedy, who was arrested several days ago in the East End by Officer Hamilton, paid his fine of \$5 60 today and was released.

A complaint was filed at city hall this morning to the effect that two wagons have been standing in the alley between Second and Third streets, near the Croxall pottery, and that it would be impossible to lead a horse between them. One of the wagons owned by Andrew Rattery, and Chief Thompson ordered the parties to remove the wagons.

Six New Cars.

It is stated that the East Liverpool Street Railway company has purchased six new cars and they will be placed on the line in this city as soon as possible.

—Mrs. H. E. Porter was a Pittsburg visitor yesterday.

TO REVOLUTIONIZE CASK BUSINESS

**New Machine Placed In Operation
at Cooper Shop of W. F.
Dawson.**

BOTH OF THEM RUN IN

**Chamfering, Crazing and Equalizing
Device For Preparing the
Staves to Be Used**

IN THE MAKING OF CASKS

A machine was placed in operation Wednesday at the W. F. Dawson cooper shop on the Horn switch that promises to completely revolutionize the trade.

The apparatus is known as the Garlach automatic crazing, chamfering and equalizing machine, and is the first machine of its kind ever turned out. It was made in Cleveland, partially under the direction of Mr. Dawson, and works perfectly.

The apparatus is intended to prepare the ends of the staves for the formation of a barrel or cask, and will take in a stave anywhere from 16 to 42 inches in length.

The machine as it now stands can be made to turn out 50,000 staves a day, although but 20,000 daily are made at present. This is an increase of 100 per cent over the old hand method, and means a great deal to both manufacturer and employee, as it will enable the coopers to devote time to some other department of the work.

Two distinct kinds of finished ends can be made with but a slight change of dies, and one great advantage which the new machine possesses lies in the fact that only a few minutes delay is necessary to sharpen the saws and bits, while there is absolutely no danger to the operator from broken staves.

John Abram, lately employed by the Standard Oil company at Cleveland, operates the machine and takes just pride in his work. The new system will be introduced at the company's shops in Wellsville, East End and Southside, and while the plan means an increase in the output of at least 100 per cent, it will make no difference in the present working force of the firm.

The machine now in use at Dawson's shop was tested at the factory in Cleveland under the direction of Captain Dawson, and was pronounced a wonder before it was brought to this city.

WEDDING BELLS.

Lisbon, Nov. 30.—(Special.)—The following Thanksgiving marriage licenses were issued:

Edward B. Clifford, Pittsburg, and Miss Isabelle Lyth, Wellsville.

COUNCIL DIDN'T PASS ORDINANCE

Liverymen Will Not Have to Pay a License Fee as It Takes

MORE THAN FIVE MEMBERS

To Be In Favor of an Ordinance Before It Can Become a Law.

IT MAY COME UP ONCE MORE

At the meeting of council Tuesday night the new vehicle ordinance came up and was presumably passed by a vote of 5 to 3, two members of council being absent.

The question has now arisen as to whether the ordinance really passed, and attorneys in this city hold that it did not, giving as a reason that it takes a majority of all the members elect to pass an ordinance.

Section 1691 of the Ohio manual for councilmen says:

"Ordinances, resolutions and by-laws shall require for their passage or adoption the concurrence of a majority of all the members elected."

The same authority also says it shall take a two-thirds vote to suspend the rules. In this case everything was proper, as seven members voted to suspend the rules and only one against.

President Marshall in declaring the ordinance passed took the position that it required a majority of the members of council present and voting.

There is no doubt whatever but that the liverymen of the city will carry the matter to court before they will pay the license fee, and in the event of a probable action the ordinance may be called up again and re-passed, but not until after an opinion is given by the city solicitor.

If the ordinance really passed the license fee can be collected, as the matter was carefully looked into before it was introduced in council.

The members who voted against the ordinance were Peach, Heddleston and Arnold, while Marshall, Nice, McLane, McHenry and Fisher supported it. The absent members were Cripps and Fisher.

President Marshall announced this morning that the ordinance had failed to pass, as it required a majority of the members elected.

This means that the ordinance was killed the other night, but it will probably be introduced at another meeting of council.

BEVERLY BUTLER

A Well Known Colored Resident of Wellsville Died Very Suddenly Last Night.

Beverly Butler, colored, who runs a restaurant on Front street, died very suddenly last night about 10 o'clock.

Butler was at the restaurant and said he was not feeling well and that he would go home. When he reached home he laid down and in two hours was dead.

He was aged about 50 years and has been in business at Wellsville for the past 15 years. He was well known in this city.

Heart trouble was the cause of death.

December 1st, 2d And 3d Via Pennsylvania Lines.

Excursion tickets to Chicago will be sold from ticket stations on the Pennsylvania lines December 1st, 2d and 3d, account the International Live Stock Exposition. The reduced rate will be open to the general public. Return limit on all excursion tickets sold for this event will be December 9th. For tickets and further information apply to nearest ticket agent of Pennsylvania lines.

TILTONVILLE POTTERY

May Be Sold to a Wheeling Company Which is Capitalized at a Million Dollars.

Negotiations are pending for the sale of the Tiltonville pottery to a company of Wheeling capitalists who, if they secure it, intend to enlarge and operate it.

A special dispatch from Wheeling says:

"The Vance Faience company, recently chartered by a dozen of Wheeling's capitalists with \$1,000,000 capital, has bought the Tiltonville pottery, at Tiltonville, O., and will make it the nucleus for one of the largest plants in the country for the manufacture of high grade art pottery."

"Charles W. Franzheim, of the Wheeling Pottery company; J. N. Vance, of the National Tube company, and John D. Culbertson, of the Riverside iron works, are among those interested. The Tiltonville pottery has been idle for several years and formerly made sanitary ware."

Inquiry of Wheeling parties elicited the information that the company is trying to buy the Tiltonville plant, but that the deal has not yet been closed. The incorporators of the million dollar Vance, Faience company are H. E. Vance, J. N. Vance, J. D. Culbertson, W. J. Mays and C. W. Franzheim. They will meet December 8 to elect officers and decide on future plans, but none of the incorporators will give out any information as to what line of ware they intend to manufacture.

OFFICIAL PAPER OF THE CITY
FRIDAY, NOVEMBER 30, 1900.

BRAVE COUGHANOUR.

It is very earnestly hoped that serious complications may not ensue in the case of the heroic engineer of the ill-fated train which went over the embankment of the Ohio river this week. The noble fellow, if he lives, should have fitting reward for his nerve and gallantry.

BITETH LIKE A SERPENT.

And now it is said that a young journalist of this city, who apparently had a bright future before him, has looked upon the wine too persistently as it gave forth its color, and that the accursed serpent coiled in the alcohol has stung him so badly that he has become a shattered, worthless wreck: "Tis true—tis pity; and pity 'tis 'tis true."

CASEY'S DEAR ONES.

And his loving wife hopes against hope, believing that, in some miraculous manner, he may have escaped the grim monster death. The more one thinks about his sad case, locked in a living tomb, in dread and darkness, not knowing what had befallen the train or the nature of the awful disaster, the more every human heart aches for him in his awful situation. It seems that his wife's hope is based on a frail foundation, if the statement that the engineer and fireman heard him crying out for help be true.

THEY HAVE FAITH.

And their faith is founded on the bed rock of fact. They know full well what they are about. They have had indisputable, unanswerable evidence given them. A glance at our columns in today's issue will show you that we have reference to the business men and merchants of East Liverpool, advertisers in the News Review; keen-witted, live and progressive merchants; men who believe in advertising where it pays to advertise. And, despite the great mass of advertising, we do no injustice to our readers, but give the full amount of local reading matter and telegraph news. Permit us to blow our own bugle.

FRANK E. OYSTER & CO., COOK AND BROADWAY, East Liverpool, Ohio.

MARSHAL SUPPLEE FILES A MOTION

Asks That the Charges Against Him Be Dismissed by the Lisbon Council.

HAS SOME GOOD REASONS

No City Ordinance or State Law That Provides For Such a Trial.

SAYS CHARGES ARE FALSE

Marshal W. C. Supplee, of Lisbon, has filed an answer to the charges preferred against him by Frank Shriver and the village council of Lisbon. His answer is headed "a motion to dismiss the action of Frank Shriver and village council against W. C. Supplee as marshal," and is as follows:

"Now comes Walter C. Supplee, as marshal of the village of Lisbon, and moves the council of said village to dismiss the charges filed against him as marshal by the village council at the request of one Frank Shriver, for the following reasons, to-wit:

"First—There is no law in the state of Ohio and no ordinances in the village of Lisbon authorizing the village council to prefer charges before the village council or to try the marshal, who was elected by the people under the laws of Ohio and not by the village council upon any such charges.

"Second—For the village council to prefer charges against an officer and to try the officer upon such charges, making the council both prosecutor and trial court is contrary to every law, to every principle of equity and justice in the history of Ohio.

"Third—There is no charge in the complaint of Frank Shriver for the resolution of the council of the village of Lisbon, of any conduct or of any act done by said W. C. Supplee as such marshal, which is made grounds for the removal of such officer, either by ordinance of the village of Lisbon or by the laws of the state of Ohio. The charges bear upon their face the evidence that they are false, malicious and untrue. They were conceived in a wanton spirit of hatred, envy and ill-will. They seem to be the offspring of an intermeddler and a sympathizer with the drunkard and the law breaker who would usurp the power of the state of Ohio and make the officer responsible to him for his act and his verdict, rather than to the laws of the great state of Ohio, which is responsible for his creation and to which he is liable for every violation of his duty as an officer.

"Fifth—The complaint of Frank Shriver and the resolution of the village council so far as they reflect upon the conduct of the defendant as an officer or charge him with the violation of his duty as marshal of the village of Lisbon, or the violation of the laws of Ohio are absolutely false.

[Signed.] "W. C. SUPPLEE, As Marshal of the Village of Lisbon."

Special to Taxpayers.

Taxpayers desiring a statement of their taxes from the County Treasurer's office, should make the request for same not later than December 1st, 1900.

MISS EARLA DUFFY

And Sheriff-elect Barry, of Cuyahoga County, Were Married Wednesday Afternoon.

Sheriff-elect E. B. Barry, of Cleveland, and Miss Earla Duffy, formerly of Wellsville, were united in marriage at Cleveland Wednesday afternoon. They spent Thanksgiving in Buffalo with friends and left for New York, where they will spend two weeks.

The Cleveland Leader gives the following account of the wedding:

"Only the immediate friends of the contracting parties were present at the wedding yesterday afternoon at 4 o'clock of Sheriff-elect Edwin D. Barry and Miss Earla May Duffy, of No. 141 Wade Park avenue. The ceremony was performed by Monsignore T. P. Thorpe at Immaculate Conception church. Immediately following the ceremony Mr. and Mrs. Barry left for a short eastern trip. No cards had been issued for the wedding, as both the bride and groom wished to avoid ostentation.

"The bride was married in her going-away gown, and was unattended. Mr. Barry's marriage was a surprise to his associates in the sheriff's office. Many of them were not notified of the event until after it had taken place. Mr. Barry is deputy sheriff of Cuyahoga county and is also sheriff-elect. At the recent election he received more votes than any candidate at the election. His bride is a young woman of rare qualities, and his many friends will congratulate him on his choice.

A WARM GAME

West End Rovers Defeated the Diamond Indians, Jr., at Football Yesterday Morning.

A very hot game of rugby was played yesterday morning at Rock Springs between two juvenile teams known as the Diamond Indians Jr. and the West End Rovers.

The game resulted in a victory for the Rovers by a score of 10 to 5. The features of the game was the run of Rolley Hawkins, of the Indians, who went around the end for a gain of 85 yards. Joe Young, another member of the same team, played the whole game through with a badly broken finger.

When the game was finished almost every member of the opposing team was bespattered with blood from the injured hand.

ROVERS LOST

East Pittsburg Defeated Them at Rock Springs Yesterday by a Score of 4 to 0.

The East Pittsburg association football club, with the wind decidedly in their favor, managed to defeat the Rovers by a score of 4 to 0 yesterday afternoon at Rock Springs.

In the first half the Rovers had the wind in their favor, but neither club was able to score and the half ended 0 to 0.

After several minutes' play in the second half East Pittsburg made their first goal, although the player who made it was clearly offside. This took the heart out of the Rovers and the other three goals followed in quick succession.

Change in Time of Trains on Pennsylvania Lines.

Under a new schedule in effect November 25th, 1900, passenger trains over the Pennsylvania lines leave East Liverpool passenger station as follows:

For the east—3:56 a. m., 6:51 a. m., 11:21 a. m., 3:06 p. m., 7 p. m.

For the west—12:36 a. m., 7:05 a. m., 9:06 a. m., 2:50 p. m., 6:13 p. m.

Sunday trains—East, 5:25 p. m.; west, 9:06 a. m.

For particular information on the subject apply to A. Hill, ticket agent.

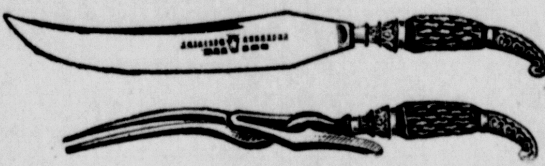

—Mrs. Oliver Ashbaugh, of East Palestine, is visiting her son, Lyle Ashbaugh, Jackson street.

GOING DOWN

The Marks at the Wharf Registered 15 Feet And Falling This Morning.

The river fell very fast the past two days and this morning the marks at the wharf registered 15 feet and falling.

The Lorena and Greenwood passed up last night for Pittsburg and the Avalon passed down for Parkersburg.

The Virginia and City of Wheeling passed up today for Pittsburg. All the boats did a good business at this place.

Several of the large boats passed down yesterday with heavy tows for southern points, and the small boats are hurrying to Pittsburg in order that they may get all the coal out possible before the river gets low.

A number of boats tied up along the beach between this city and Wellsville last night.

NEW OFFICERS

Local Union No. 12 Held an Election at Their Last Regular Meeting.

Local union No. 12, N. B. of O. P., at their last meeting elected the following officers to serve during the coming year:

President, George Wilson; vice president, George White; recording secretary, William Anderson; financial secretary, Thomas Higgins; treasurer, Leroy Orr; statistician, J. M. Grafton; inspector, George Schepp; outside guard, Charles Durff; trustees, John Reark and Charles Durff.

The meeting was well attended and some of the contests were spirited. The newly elected officers will be installed at the next regular meeting, December 4.

GOOD ROADS DESIRED.

Wilson's Report Says There Are Many Inquiries.

FOUR EXPERT AGENTS APPOINTED.

Figures Show Extent of Cattle and Meat Inspection—Treatment of Animal Diseases—Work Begun on Model Farm. Exports—Some Other Points.

Washington, Nov. 30.—The report of Secretary of Agriculture Wilson in part contains the following:

Important extensions of the weather bureau work have been made during the past year.

The number of abattoirs and packing houses receiving the benefit of inspection was 148 in 45 localities, as against 138 in 41 localities the preceding year. The total ante-mortem inspection of cattle aggregated 53,087,994; animals rejected, subject to post-mortem, at abattoirs, 5,958; and in stock yards, 153,561. The total post-mortem inspections were 34,737,613, and the total carcasses condemned, 61,906. In the microscopic inspection of pork 999,554 carcasses were examined. Of these but 19,448, or 1.95 per cent, were found to contain living trichinae. The total cost of inspection was but a few dollars over \$700,000. Of vessels inspected by officers of the bureau 862 received clearances. Of the cattle shipped across the Atlantic, the loss amounted to but .24 per cent; of sheep, .71 per cent, and of horses, 2.55 per cent. It is interesting to note the great increase in the number of horses exported. Of these, over 29,000 were landed from American ports at London, Liverpool and Glasgow.

To Save Cattle From Inspection.

During the quarantine season of 1899 over a million cattle were moved under the supervision of the bureau from the district infected with the southern cattle tick. In Texas alone over 357,000 cattle were inspected for shipment to other sections. The sheep industry has suffered greatly from sheep scab, and much time and attention have been given to securing its control and eradication. Results so far are encouraging, and the secretary believes that a few more years of earnest work will effectually eradicate the disease. Over 1,800,000 sheep were inspected and nearly 627,000 dipped under the supervision of the inspectors.

The work of preparing serum for treating hog cholera and swine plague and experiments in treatment therewith are continued, with results which, while they do not justify definite conclusions as yet, are sufficiently encouraging to justify continued experiments, including some on entirely new lines.

Considerable space is given to the consideration of tuberculosis, "the most prevalent and most destructive disease affecting mankind and the domesticated animals."

Experimental shipments of dairy products are still continued, and shipments of butter have been extended to Cuba and Porto Rico. The department is seeking to obtain information useful to butter exporters in canning butter and producing butter especially adapted to shipment to warm countries. Some countries sending butter to these markets show a disposition to adapt their products to the needs of those countries, which is an example our producers must follow if they are to compete successfully with them. The secretary earnestly recommends an inspection of dairy products designed for export. He points out the example of other countries, whose large foreign trade in dairy products has been principally developed owing to the fact that their best products bear a government stamp, guaranteeing the article to be as represented.

Pure Food Congress Helped.

Active co-operation has been had with other bodies, notably the pure food congress, in an effort to secure legislation on the subject of food adulterations. National legislation on the subject is urged as essential to supplement and make efficient the work done in the several states. The sugar beet work has been prosecuted with vigor and intelligence. Foreign food products introduced into this country have been the subject of careful study. The results are confidential and are used for the information of the authorities of this country controlling imported food products.

Seed and plant introduction receives extensive notice, special stress being laid upon the importations of cereals, including the macaroni wheats of Southern Europe, of

grasses and forage plants, and of vegetables, which have already demonstrated their virtue.

The relations of the division of forestry with practical lumbermen and tree planters have been closer and more useful than ever before. Tree planting plans were made for 69 applicants.

The department is receiving with increased frequency applications for planting and working plans for water sheds from which cities obtain their supplies. A typical instance is that of the water company of Johnstown, Pa., one of the chief objects being to prevent a recurrence of the disaster there.

Studies of commercial trees, with a view to ascertaining rate of growth and production and other facts germane to the best practical forestry, were considerably extended.

Much Interest In Good Roads.

There is much inquiry in all sections of the United States regarding better roads and better methods of building them. It has been deemed wise to divide the country into four sections, and to appoint in each an expert agent. This has been done, and one appointed in the eastern states, one in the southern, one in the prairie states and another in the Rocky mountain states. These gentlemen are to study the needs of these several sections, give instruction as to road building, and report regularly to the department. They will, moreover, supply samples of road material for analysis and testing, a testing machine having been arranged for in the laboratory of the division of chemistry, to be operated by an expert under the joint supervision of the director of road inquiry and the chief chemist.

Much work has been done in the past year in co-operating with the colleges and stations and the people of the several states in building experimental roads, and generous acknowledgement is made of the services contributed to the cause of good roads by the various transportation companies throughout the country.

The secretary reviews at considerable length the work of the experiment stations.

During the fiscal years 1897-1900 our total sales of domestic farm products to foreign countries aggregated the enormous sum of \$3,186,000,000, an excess of \$800,000,000 over the preceding four-year period. The agricultural exports of the United States for the past fiscal year amounted to \$844,000,000. The rapid growth of our export trade to the Orient in recent years is most striking. Five years ago our total shipments of domestic merchandise to Asia and Oceania were valued at \$43,000,000, of which only \$9,700,000 were agricultural. There has been a steady increase in each succeeding year, until in 1900 our export trade with the Orient amounted to \$107,000,000, of which \$30,000,000 worth was farm produce. Of this great increase in the growth of our agricultural exports to that quarter of the globe, amounting to something over \$20,000,000, \$11,500,000 consisted of cotton, and \$3,400,000 of wheat flour.

Markets In New Possessions.

During the past fiscal year Cuba, Porto Rico, the Hawaiian Islands and the Philippines furnished a market for \$45,000,000 worth of our domestic products. Five years ago these islands took but \$13,000,000 worth. During the fiscal year 1900 we sold to these islands \$20,000,000 worth of farm produce, an increase of \$13,700,000 over 1896.

Appropriations for the department for the fiscal year ended June 30, 1900, amounted to \$3,006,022, an excess over 1899 of \$176,320. In addition, the usual sum of \$720,000 was provided for division among the state agricultural stations. Expenditures and liabilities incurred during the year were \$2,975,000. During the year \$4,440 was paid for the rental of leased buildings in Washington.

The final official list of the Paris exposition awards has not yet reached the department, but preliminary reports supplied by its representatives in Paris record about 500 awards to United States exhibitors in agricultural, horticultural and food products. The United States was also generously considered in the forestry and tobacco classes.

An urgent recommendation is made for the erection of new, fireproof laboratory buildings, which, it is estimated, will cost about \$200,000.

Under the authority of congress work has been begun on the Arlington estate with a view to establishing an experimental farm on the land set apart for the use of the department.

Niece of Late Rusts Married.

London, Nov. 30.—Miss Helen Johnson, a niece of ex-Ambassador to France J. B. Eastis, was married to Captain Amesley. The marriage was quiet and was performed by Mgr. Vaughan.

A PRETTY WEDDING.

Robert H. Perry and Miss Ada Crofts Were United in Marriage Wednesday Evening.

On Wednesday evening, November 28, Robert H. Perry and Miss Ada Crofts were united in marriage.

The groom is a well known and popular salesman for the Hard Furniture company, a graduate of Volant college and has a host of friends in this community.

The bride is the youngest daughter of John B. Crofts, Esq., president of the County Farmer's association, and one of the leading agriculturalists of Columbiana county. She is a sister of Miss Mary Crofts, principal of the Sheridan avenue school.

The ceremony was performed at the residence of the bride's parents by Rev. Snyder, pastor of Long's Run Presbyterian church, in the presence of the immediate relatives of the bride and groom. An elegant supper was served.

After a brief visit among friends, Mr. and Mrs. Perry will make their home in this city.

ANNIE REED

Has Filed an Action in Court Against the Executors of Her Father's Estate.

Lisbon, Nov. 30.—(Special.)—Annie Reed, an heir and legatee of the late Thomas Smith, of East Liverpool, has entered suit against W. N. Calhoun and Jessie H. Smith, executors of the estate of her father, making serious accusations against Calhoun.

She states that the deceased died on April 20 last, and although she was an heir to the estate she had no notice of the application to probate the will and she now claims that the will was materially altered in one clause after the same had been executed; Calhoun inserting the following words: "I further direct that after the death my daughter, Annie Reed, that all I have bequeathed to her, both personal and real, be divided equally among her children, share and share alike."

Mrs. Reed asks that this clause, inserted as she says by Calhoun, may be declared null and void and the will be established as it read before the alteration took place.

The deceased bequeathed to his daughter 200 acres of land in Beaver county, Pa., and also sufficient money to pay off a mortgage against her husband's farm, which adjoined the one bequeathed to her.

Hassey's Saturday Special Sale.

—Mr. and Mrs. E. W. Hill, of Seventh street, spent Thanksgiving with Mrs. Hill's parents at Salineville.

CHAS. RALSTON'S RUN OF BAD LUCK

Had Just Recovered From a Severe
Attack of Typhoid Fever
and Had

RETURNED TO HIS WORK

Three Bungs of Saggars Fell and
Ralston Was Caught Be-
neath Them.

WILL BE OFF FOR SEVERAL DAYS

Charles Ralston, a kiln drawer at the Dresden, certainly has a little more than his share of ill luck.

The young man had just recovered from an attack of typhoid fever and started to work less than two weeks ago. He was taken ill several weeks ago and went to his home in Toronto, where he had a long siege of the disease.

He left his boarding house yesterday morning for work and had not been engaged at his work half an hour when three bungs of saggars fell, almost covering the man with ware and broken saggars.

He was taken to the residence of Mrs. Nellie Fowler, on Sixth street, where he boards, in the patrol, and Dr. Hobbs summoned. It was found that his left arm was badly dislocated and it required some time to set the young man right.

The unfortunate gentleman is resting easy today, although it will be some time before he is able to return to work.

JAPS WERE HERE

Two Well Educated Japanese Were in the City Calling on Friends.

Ennosuke Jinushi, of New York City, and S. Kinezan, of Kyoto, Japan, were in the city Wednesday calling on friends. They left on the evening train for Cincinnati.

Mr. Kinezan has been visiting in this country for some time and will leave soon for his native country.

Mr. Jinushi speaks English well and both gentlemen were much pleased with the city.

Men's patent leather shoes for \$2.50 that will charm you, at FRANK SHUMAKER & CO.

Hassey's Saturday Special Sale.

EAST END.

A GOOD GAME.

The Royal Tigers Played Good Foot Ball at Lisbon Yesterday.

The foot ball game between the Royal Tigers of East End and the Lisbon team at Lisbon yesterday afternoon resulted in a tie, 5 to 5.

Lisbon made a touchdown in the first half by a series of fumbles on the part of the Liverpool people, but failed to kick goal. The Tigers were not very effective in the beginning, owing to the players not being properly placed, but they were adjusted in the second half, and they way they bucked that center was a caution, not a gain being less than seven yards. Their touchdown was made in the second half, and Wheatley missed the kick.

Allison's game leg gave out during the first half and he was compelled to retire.

The best of feeling prevailed throughout the game and not a kick was made on either side. The Tigers reached this city at midnight.

The teams lined up as follows:

Lisbon.	Tigers.
Archibald ..Right end.....	Orr
Skilleum ..Right tackle..	O'Malley
Nicholas ..Right guard....	Ward
Gallagher ..Center.....	Searight
Marquis ..Left guard..	Goodballet
Herbert ..Left tackle....	Howard
Dilliand ..Left end.....	Wilson
Steele ..Right half....	Hendricks
Bowman ..Left half....	McLane
Jenkins ..Quarterback..	Stevenson
Rupp ..Fullback....	Wheatley
C. C. Connell, referee; J. Curry, umpire.	

Thanksgiving Services.

Thanksgiving services were held in the Second Presbyterian church last night, Rev. McKinley, of Steubenville, occupying the pulpit. The service was very interesting. Miss Blanch Bray, of Industry, was present and sang two very fine solos.

Union Services.

The union services held in the Second United Presbyterian church yesterday morning were well attended and very interesting.

Rev. N. M. Crowe preached a masterly sermon. The music was a special feature.

Notes of East End.

A little daughter of Mr. and Mrs. Rev. Crowe, of Pennsylvania avenue, is ill.

Miss Mary Madison returned last evening from Salineville, where she spent Thanksgiving with her parents.

Mrs. Prudence, of Southern Virginia, is a guest at the home of Mrs. Hamilton, Ohio avenue.

Frank T. Searight, police court reporter on the Cleveland Press, spent

yesterday at the home of his parents on Pennsylvania avenue.

Miss Maud Munnell, of Crafton, Pa., is a guest of East End friends.

On Wednesday evening after prayer meeting the members of the Second Methodist Episcopal church presented Rev. Orcutt, pastor of the church, with a substantial token of their appreciation of his untiring devotion to the church.

East Liverpool Team Loses.

The basket ball team of the Wilmerding Y. M. C. A. opened up the season with the team from East Liverpool, O., winning by a score of 23 to 6. Line up:

Wilmerding.	East Liverpool.
Horracks ..Left forward	Uslar
Woods ..Right forward	Allison
Scott ..Center.....	Pope
Lambie ..Left guard..	McCullough
Deevers ..Right guard..	Chadwick

Goals from field—Woods, 6; Lambie, 2; Deevers, Horracks, Scott, Pope. Goals from foul—Allison, 2; Lambie. Referee—C. H. Burkhardt. Umpire—H. J. Alcott, of East Liverpool. Time—20-minute halves. Substitutes—Bostock for Uslar.

WANTED—Good cooper. Apply to R. P. Fowler, Sebring, Ohio. Good job for good workman.

WANTED!

LOCAL BREVITIES.

The electric light at the corner of Seventh and Jackson streets has been out for several nights.

Kenneth, the three-year-old son of Mr. and Mrs. E. H. Sebring, Sixth street, is ill with tonsillitis.

Euphernice, the small daughter of Mr. and Mrs. Fred Anderson, Franklin street, is afflicted with measles.

Mr. and Mrs. Hileman have returned to their home in Gardendale after a visit with relatives down the river.

Executions to the number of seven were issued in delinquent tax suits in the court of Squire McCarron this morning.

The sophomore and freshmen class foot ball clubs failed to play this morning and a game may be played tomorrow morning.

The National Guards, Jr., and the Royal Tigers, Jr., played a foot ball game yesterday morning at East End. The Guards won by a score of 5 to 0.

The three daughters of Mr. and Mrs. Samuel Hineman, West End, have so far recovered from their recent illness as to be able to return to work.

Rev. T. C. Pollock, of Cambridge, is assisting this week at special services at the First U. P. church. He will preach this evening and will occupy the pulpit on Sunday.

The members of the Belmont club and their lady friends enjoyed a very pleasant evening at their rooms in the Thompson building last night. Dancing was the principal amusement.

The four-year-old child of Mr. and Mrs. John Tarr died Wednesday from an attack of measles. The funeral services took place this afternoon from the home on Trentvale street.

The game to have been played yesterday between the East Liverpool and Wellsville high school foot ball teams was declared off. Wellsville booking another game in the morning.

Willis L. Headley and Miss Annie Lowe were united in marriage last evening at 7:30 o'clock at the First M. E. parsonage. Rev. Clark Crawford officiating. The happy couple will make their home in this city.

The Junior Mechanics held no meeting last night, owing to it being Thanksgiving, and the organization will not get together until next Thursday, on which occasion the regular election of officers will be held.

The Thanksgiving services held yesterday morning at the Christian church were largely attended and Dr. Taggart delivered an interesting sermon. The collection amounted to \$23.23 and was given to the hospital association.

The seven-weeks-old child of Mr. and Mrs. William Maley died yesterday at their home on Market street. The funeral took place this afternoon at 4 o'clock from St. Aloysius' church. Interment was made in the Catholic cemetery.

The four-year-old child of Mr. and Mrs. Homer Jordan died at their home on Lisbon street yesterday from measles. The funeral will take place tomorrow morning at 10 o'clock, and Rev. Clark Crawford will officiate. Interment will be made at Spring Grove cemetery.

ROASTED TO DEATH.

About 75 People Fell on Glass Furnaces and Vats.

NINE DEAD; OTHERS MAY DIE.

Fully 50 Persons Were Badly Injured. Roof of the Pacific Glassworks in San Francisco Fell With Some Spectators of a Football Game.

San Francisco, Nov. 30.—Nine people were killed and fully 50 badly injured by the collapse of the roof of the Pacific glass works, on Fifteenth street, while it was crowded with men and boys watching a football game on the field adjoining. About 75 people fell through the roof upon the red hot furnaces and glass vats below. All were horribly burned, and it is feared that in addition to the nine deaths reported there will be several more.

The dead:

J. A. Mulrooney.
W. H. Eckfeldt.
Edgar Flahain.
T. J. Rippon.
William Valencia.
M. Vandina.
Three unidentified.
Tallyrand Barnell.
Carroll Hold.
Frank Newby.
— Fox.

Eighty-two persons, more or less injured, have been taken to the various hospitals or removed to their homes.

The victims were watching a football game between the Stanford and University of California teams, when the roof beneath them gave way. Some of them fell on the furnaces and one man of unknown identity was burned almost to a crisp.

There were about 200 people on the roof when it collapsed, and of these about 54 went through. Those who were fortunate enough to be on a solid section of the building hurried down and helped remove the injured. The heat around the furnaces was so great, however, that to some of the victims no assistance could be rendered, and they slowly roasted to death. Not 200 yards away were about 20,000 people, watching the football game, and when the news became known there was intense excitement among them. The ushers went through the crowd calling for doctors, and many surgeons hurriedly left the game. The living victims of the disaster were taken to some of the different hospitals and nearby drugstores.

The coroner did not have enough wagons to remove the dead and they were taken away in express wagons. Many private carriages were waiting outside the football grounds, and these were pressed into service to take away the wounded.

So far as known this list comprises all the dead, as the first reports were exaggerated. It is reported that one man, Joseph Gumper, fell into the furnace and his body was incinerated.

The manager of the glass works realized the danger before the accident occurred and had sent for the police to compel the crowd to leave. Just as a squad of officers arrived from the city hall the roof went down.

FAVERSHAM VERY ILL.

Fatal Result Feared From an Operation on the Actor For Appendicitis.

New York, Nov. 30.—William Faversham, the actor, is dying of appendicitis. An operation was performed two days ago, and his case, according to the physicians, is the worst in their experience. Mr. Faversham was taken ill in Boston, and was brought to New York by special train. It was a rather sad Thanksgiving at the Faversham home on Fifty-second street, although friends were constantly calling with flowers and kindly messages.

Mr. Faversham has been connected with the Frohman enterprises for 10 years, and was recently seen in Pittsburg in "Lord and Lady Algy." He was to have appeared at the Empire on the last day of December in a new play, "Mrs. Deane's Defense."

Fireman Johnson Badly Hurt.

Alliance, O., Nov. 30.—The first section of passenger train No. 20, on the Fort Wayne road, was wrecked at Rome siding, about a mile and a half west of Maximo, by striking the rear end of an east-bound extra freight as it was entering the siding. Fireman Eli Johnson, of Crestline, O., was badly cut about the head and his collar bone was broken.

Football Games.

U. of P., 27; Cornell, 0.
Homestead, 12; Latrobe, 0.
Columbia, 17; Carlisle Indians, 6.

W. M. ERLANGER & CO.

Cor. Fifth and Washington Streets. East Liverpool, Ohio.

Review of Reviews

Ask any or all of your male friends and acquaintances where they buy their clothes, and how they are pleased. See if the best dressed and most pleased don't answer in chorus—

ERLANGER'S

Ask each one to hold up their right hand and solemnly answer truthfully regarding the cost, and see if the best dressed, best pleased, the Erlanger customers didn't buy better, or cheaper than those who haven't yet learned the lesson of trading at

ERLANGER'S

Suit and Top Coat } Goodness at \$10
Excellence at \$15

Don't You Suppose

that there is a reason for this rapidly increasing trade? People wouldn't keep coming, and new trade wouldn't be added daily if there wasn't merit in our showing, if there wasn't money to be made by trading here. Now would they?

We're Pleased to Have You Look. Buying Follows

\$2 Buys Here

Boy's boucle reefers, and boy's chinchilla reefers, and boy's neat durable suits, not the best, but better than most folks expect, and some are candid enough to admit it; thus encourage us in underselling. Good as you can get elsewhere at \$2.50, but that's another story.

\$4 Buys Here

Boy's fine suits, and with all our modesty, all our caution to make our newspaper statements mild, we can't help repeating FINE suits, in two or three piece styles, of pure wools, in neat patterns, and well made, and we leave it to you to say if you save a dollar, or one and a half or two dollars. You have been around and we have't, see?

50c Buys Here

Good knee pants of pure wools, made, some of them, from tailoring remnants, and we are going to let the other fellows advertise the 12c or the 15c or the 25c kinds—we've got them, but we can't conscientiously advise buying them, so long as this 50c lot is to be had.

Young Men Invest.

\$5.00 Buys Here

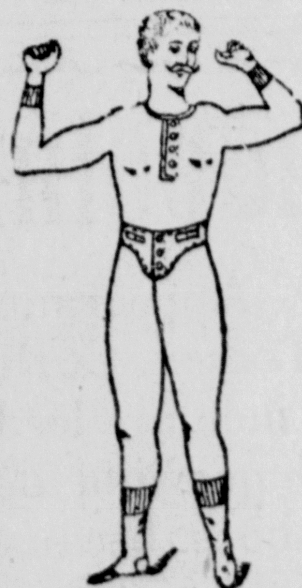

Good wearing suits, Plain or fancy weaves, a dozen or so lots nicely and stylishly made deserving \$7 selling marks, probably as good, maybe better than \$7.00 buys elsewhere, and the supply of this special offering is limited. Be as wise as the bird.

\$8.00 Buys Here

Young mens suits and overcoats too, in many leading weaves, in all the leading stylish makes, plain or fancy weaves, and we'll warrant the fit to be the noblest and best you ever tried on. A new assortment, great values, and you need not take our word for it, depend upon your own judgment, or compare if you will.

The Weather Man gets all the Blame

Each year we make up our minds not to buy so heavily next time, and then we pitch in and buy more than ever. Cold weather holds off and we think we're stuck—that's what we think now and therefor we're going to sell—

75c Underwear for 50c.

Camels hair, soft and pleasant, and cotton derby ribbed and extra heavy fleeced, and, and, and, we'll tell you the rest in person. 50c instead of 75c.

\$1.25 and \$1.50

Underwear \$1.00.

Dr. Wright's health underwear, heavy fleeced, and blue silk fleeced, and natural wool, and fine balbriggan, and much more in the dollar showing, which if we weren't overstocked would remain \$1.25 and more.

Winter Gloves for Street, Dress Driving, Etc.

Silk lined dress and street gloves, fleeced lined undressed mochas, buck driving, the new slate colored kids, and many other \$1.25 lines, \$1 for an indefinite period.

Who's Your Hatter?

We O-2-B

We ought to be—for where else in East Liverpool can you find such assortments, such qualities at such prices?

Agents for Dunlap Hats

All other popular blocks, in several grades, and each warranted best at the respective prices.

Knox, Miller, Youman, etc. Blocks

Copied in \$1.50, \$2.00 and \$3.00 grades.

Winter Caps for Men and Boy's

An assortment of good warm chevots and worsteds, in light weights, or in pull down bands, to cover ears and neck, including many which have been culled from 50c lots, on special sale tomorrow 25c at.
